

Pictures of SCANIA:

Model 1: C400 ECU MID EU/RoW 4.5G

Model 2: C400 ECU MID NA 4.5G

Top view	 A photograph showing the top view of a black electronic control unit (ECU) for a Scania C400. The unit is rectangular with a silver-colored metal bracket on the left side. A white label with text is visible on the right side. A yellow ruler is placed vertically to the left of the unit, and another yellow ruler is placed horizontally below the unit. The background is a plain, light-colored surface.
Bottom view	 A photograph showing the bottom view of the same black electronic control unit (ECU). The underside is a silver-colored metal plate with various mounting points, including several circular holes and rectangular slots. A yellow ruler is placed vertically to the left of the unit, and another yellow ruler is placed horizontally below the unit. The background is a plain, light-colored surface.

Front view	 A black plastic automotive component, likely a door sill trim, shown from the front. It has a rectangular shape with a central recessed area and a small circular feature. A yellow ruler is placed below it for scale, showing a length of approximately 18 cm.
Rear view	 The rear view of the component, showing internal mounting points and a multi-pin electrical connector on the right side. A yellow ruler is placed below it for scale, showing a length of approximately 24 cm.
Right view	 The right side view of the component, showing its profile and a small protrusion on the right. A yellow ruler is placed below it for scale, showing a length of approximately 24 cm.
