Safety Tips

1. Don't expose the product to liquids, moisture or humidity as it has electronics and battery inside.
2. Don't disassemble your product. There are no userserviceable parts inside it.
3. Don't drop the product and keep it away from sharp objects.
4. Charge your product below 5V/1A charger.
5. Don't expose the product to extremely high or low temperature as this may damage the battery or even deform the plastic parts.
6. Listening to the music at high volume is harmful to your ears.
7. Don't throw the product in a fire to dispose of it, otherwise the battery inside may explode.

Batteries:

A warning that batteries (battery pack or batteries installed) shall not be exposed to excessive heat. 1. Replacement of a battery with an incorrect type that can defeat a safeguard. 2. Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of the battery, that can result in an explosion. 3. Leaving the battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas. 4. The battery subjected to extremely low air pressure may result in an explosion or the leakage of flammable liquid or gas.

FCC Regulatory Compliance

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

FCCID: 2AJXA-PZ4FUNFONES

FCC Regulatory Compliance

Reorient or relocate the receiving antenna. Increase the separation between the equipment and receiver. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
