Dear Sir or Madam:

The product IP WALKIE TALKIE,model: VT36 , FCC ID:2AKDA-VT36 use baseband platform MT6735 which can support LTE TDD/ FDD Band.But only LTE band 5/7/41are activated.

The other bands are disabled by the manufacturer using the software. In addition, the product only support frequency range 2555MHz to 2655MHz for LTE band 41.

Sincerely,

A handwritten signature in black ink, appearing to read 'K.C. Yap', with a stylized flourish at the end.
