

Abrites remote control-TA15 assembly consists of a plastics case with 3 user buttons, a rubber sealing button panel, PCB and battery. It generates an FSK encoded signal that is transmitted at 315MHz. Abrites remote control-TA15 uses an integrated MCU that detects button presses and calculates and transmits an encoded signal to a receiver. This signal is generated by internal software in MCU and it is transmitted by internal RF Transmitter. The antenna is integrated into the PCB.

NOTE: THE GRANTEE IS NOT RESPONSIBLE FOR ANY CHANGES OR MODIFICATIONS NOT EXPRESSLY APPROVED BY THE PARTY RESPONSIBLE FOR COMPLIANCE. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.
