

Model differences

We,

Axilspot Communication Co., Ltd. Statement that all the model “**ASC175, C700, M610, ASC120, C600, M510, ASC6, C300, M200**” are the same circuit and RF module, it is not affect RF character. the difference is as following.

Model	Difference	
	Number of antennas	With 11ac function or not
ASC175, C700, M610	6	Yes
ASC120, C600, M510	4	Yes
ASC6, C300, M200	4	No

The models ASC175, C700, M610, are the same products, just different model No..

The models ASC120, C600, M510, are the same products, just different model No..

The models ASC6, C300, M200, are the same products, just different model No..

In addition to these differences, the electrical structure and the mechanical structure of all models are the same.
