

EUT View 7	 A close-up photograph of a black plastic component, likely a part of an electronic unit. The component has a curved top edge and a flat surface. In the center of the flat surface, there is a circular feature with a small, circular, metallic-looking element in the middle. This element has a cross-shaped pattern on its face. The background is a solid blue color.

Model: CH-C09D(white)

EUT View 1	 A photograph showing the front of a white, rectangular Aqara CH-C09D device. The device features a large circular black sensor at the top and a smaller circular white sensor with a bell icon at the bottom. The brand name 'Aqara' is printed at the bottom. The device is placed on a blue textured surface next to a black ruler with white markings for scale.
EUT View 2	 A photograph showing the back of the white, rectangular Aqara CH-C09D device. The back panel is plain white with a small rectangular cutout in the center and a small circular hole at the bottom. The device is placed on a blue textured surface next to a black ruler with white markings for scale.
