

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

Model: CH-C09E(black)

**EUT Housing and
Board View 1**

**EUT Housing and
Board View 2**

Solder Board-Component View 1	 A photograph of a small, square, black printed circuit board (PCB) component. The component is densely populated with various electronic components, including a central integrated circuit (IC), several resistors, and capacitors. It is placed on a blue background next to a black L-shaped ruler for scale. The ruler has white markings in millimeters and centimeters.
Solder Board-Component View 2	 A photograph of the same PCB component from a different angle, showing the underside. This view reveals the solder joints connecting the component to a larger board. A red component, likely a battery or a specialized IC, is visible on the left side. The component is again placed on a blue background next to a black L-shaped ruler for scale.

Solder Board-Component View 3	 A photograph of a small, circular, black printed circuit board (PCB) component, likely a surface-mount device, resting on a blue fabric surface. The component has a central circular cutout and several small, rectangular components mounted on its outer edge. A black L-shaped ruler with white markings is placed next to the component for scale. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
Solder Board-Component View 4	 A photograph of the same small, circular, black PCB component from a different angle, showing the underside. The component has a central circular cutout and several small, rectangular components mounted on its outer edge. A black L-shaped ruler with white markings is placed next to the component for scale. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10).
