

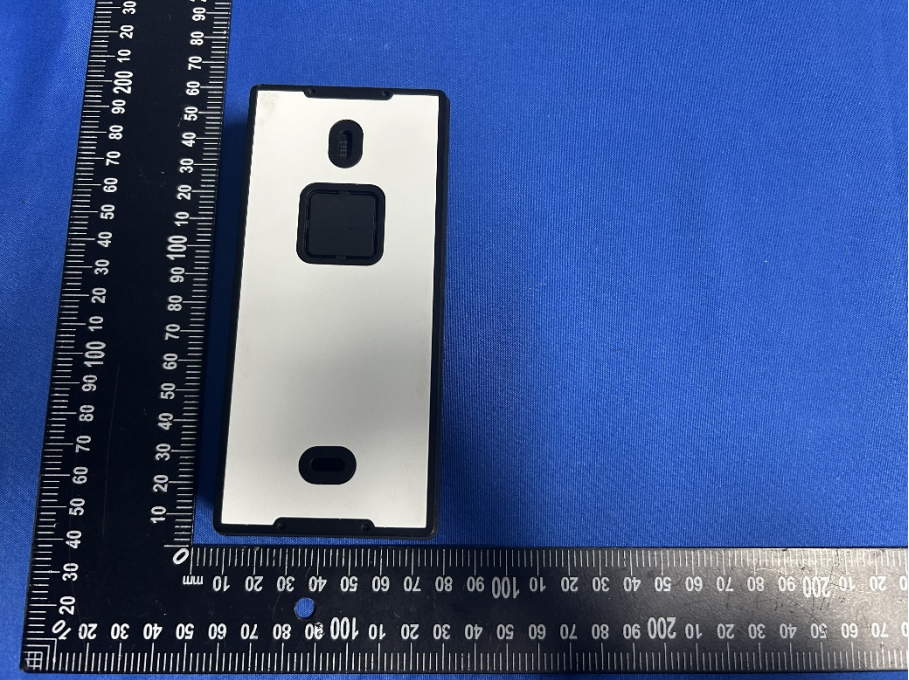

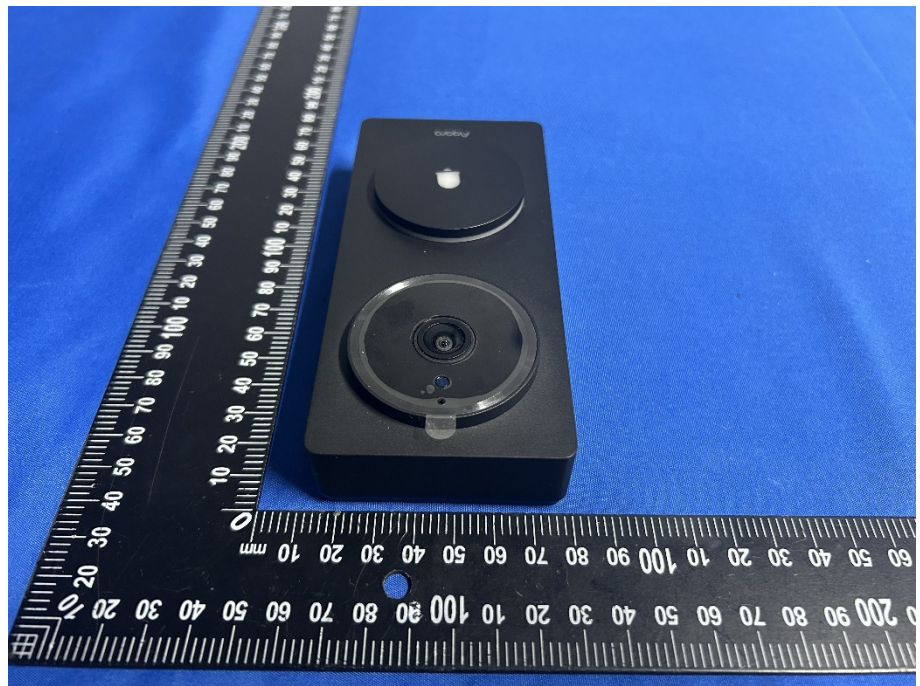

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

Model: CH-C09E(black)

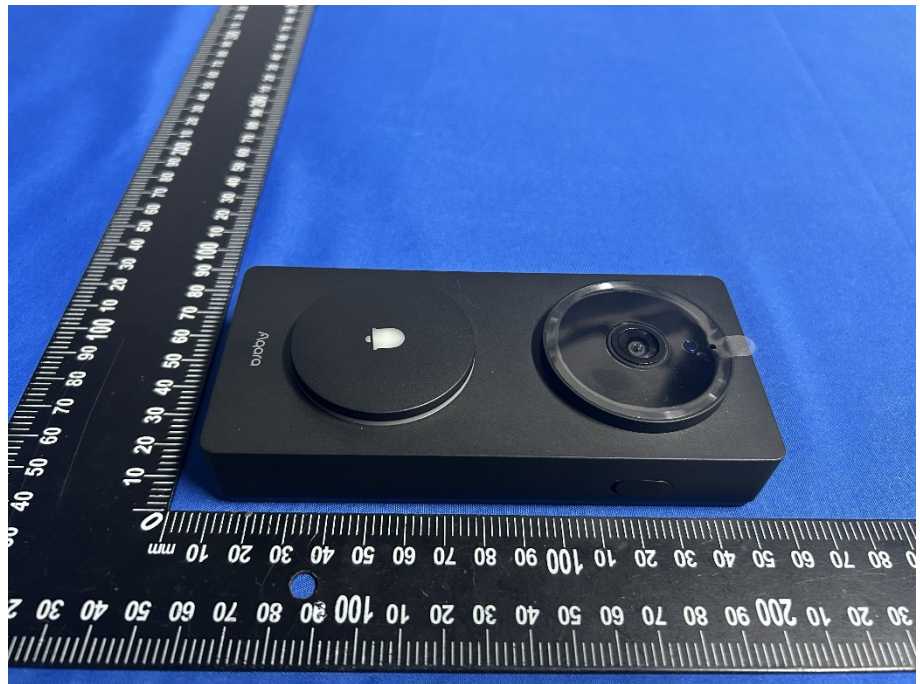

EUT View 1	 A photograph showing the front of a black rectangular device. It features a large circular camera lens at the top and a smaller circular sensor below it. The brand name 'Aqara' is visible at the bottom. A ruler is placed horizontally below the device, showing measurements in centimeters and millimeters. The background is a blue textured surface.
EUT View 2	 A photograph showing the back of the device. It has a silver-colored metal backplate with a black rectangular camera module in the center and a small circular sensor at the bottom. A ruler is placed horizontally below the device, showing measurements in centimeters and millimeters. The background is a blue textured surface.

EUT View 3	 A black rectangular smart home device, identified as an Aqara camera, is shown from a top-down perspective. It features a circular camera lens on the left and a circular sensor or light on the right. The device is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters, with the device's width being approximately 40 mm.
EUT View 4	 A black rectangular smart home device, identified as an Aqara camera, is shown from a side-on perspective. It features a circular camera lens on the left and a circular sensor or light on the right. The device is placed on a blue surface next to a black ruler with white markings. The ruler shows measurements in centimeters and millimeters, with the device's width being approximately 40 mm.

-------------------	--

Model: CH-C09E(gray)

EUT View 1	 A photograph of the front of a black smartphone, model CH-C09E. The device is positioned vertically on a blue fabric surface. To its left is a black L-shaped ruler with white markings in centimeters and millimeters. The camera module is located in the upper half of the device, featuring a large circular lens and a smaller circular flash. The word 'Agora' is printed in small letters below the camera module. The ruler indicates the device is approximately 150mm high and 70mm wide.
EUT View 2	 A photograph of the back of the same black smartphone. It is placed on the same blue fabric surface next to the same L-shaped ruler. The back view shows a large, rectangular, silver-colored metallic plate in the center. Above this plate is a small circular camera lens, and below it is a larger rectangular flash unit. The ruler shows the device is approximately 150mm high and 70mm wide, matching the front view.
