

Model: CH-C09D(white)

EUT Housing and Board View 1	 A photograph showing the internal components of a device, specifically the EUT housing and board. The components are laid out on a blue surface next to a black ruler with white markings. The ruler is oriented vertically on the left and horizontally at the bottom. The components include a white plastic housing with a blue slot, a black printed circuit board (PCB) with various electronic components, and a silver metal component with a blue slot. The components are arranged in a row, with the white housing on the left, the black PCB in the middle, and the silver metal component on the right.
EUT Housing and Board View 2	 A photograph showing the internal components of a device, specifically the EUT housing and board. The components are laid out on a blue surface next to a black ruler with white markings. The ruler is oriented vertically on the left and horizontally at the bottom. The components include a white plastic housing with a blue slot, a black printed circuit board (PCB) with various electronic components, and a silver metal component with a blue slot. The components are arranged in a row, with the white housing on the left, the black PCB in the middle, and the silver metal component on the right.

Solder Board-Component View 1	 A photograph of a small, rectangular electronic component, likely a solder board, placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler shows measurements in millimeters (0 to 100) and centimeters (0 to 10). The component is oriented vertically, with its longer side parallel to the ruler's 0-100 mm scale.
Solder Board-Component View 2	 A photograph of the same electronic component from a different angle, showing its top surface. The component is placed on the same blue textured surface next to the same black ruler. The ruler's 0-100 mm scale is visible, providing a reference for the component's size. The component's orientation is consistent with View 1.

Solder Board-Component View 3	 A photograph of a circular solder board component, likely a microchip carrier, placed on a blue textured surface. The component is a dark, ring-shaped PCB with several gold-colored pins or solder points around its perimeter. A black L-shaped ruler is positioned next to it for scale, with the vertical ruler on the left and the horizontal ruler at the bottom. The vertical ruler has markings from 0 to 60 mm, and the horizontal ruler has markings from 0 to 100 mm.
Solder Board-Component View 4	 A photograph of the same circular solder board component from a different angle, showing the underside or a different side. The component is a dark, ring-shaped PCB with various components and solder points visible. A black L-shaped ruler is positioned next to it for scale, with the vertical ruler on the left and the horizontal ruler at the bottom. The vertical ruler has markings from 0 to 60 mm, and the horizontal ruler has markings from 0 to 100 mm.
