

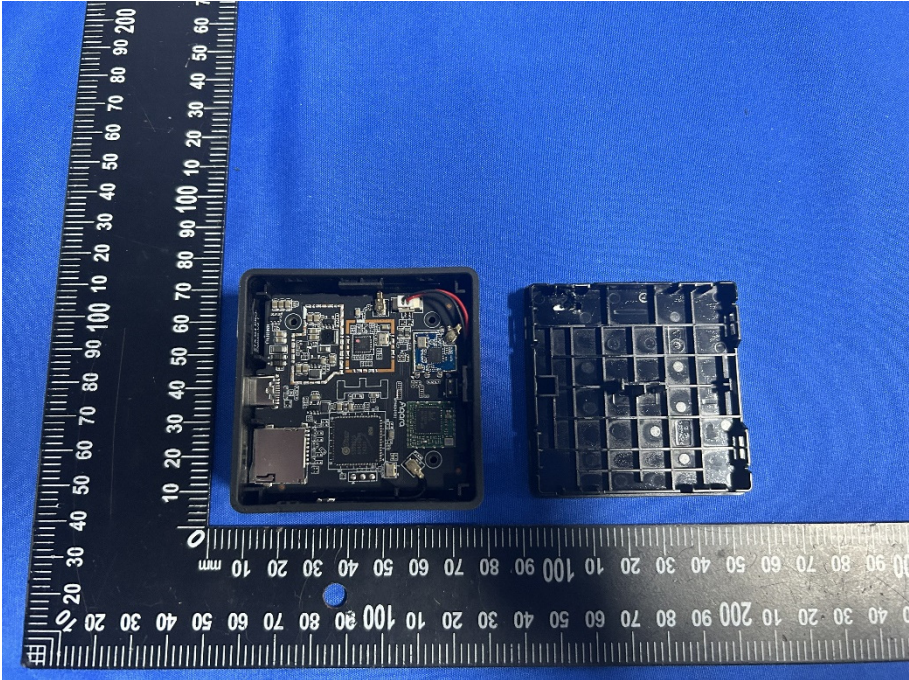

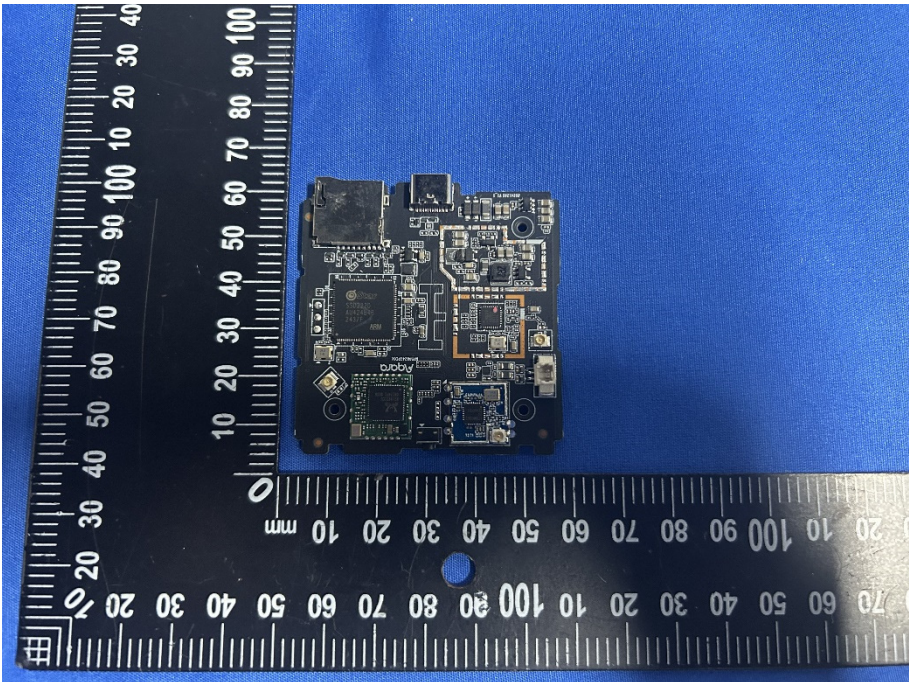

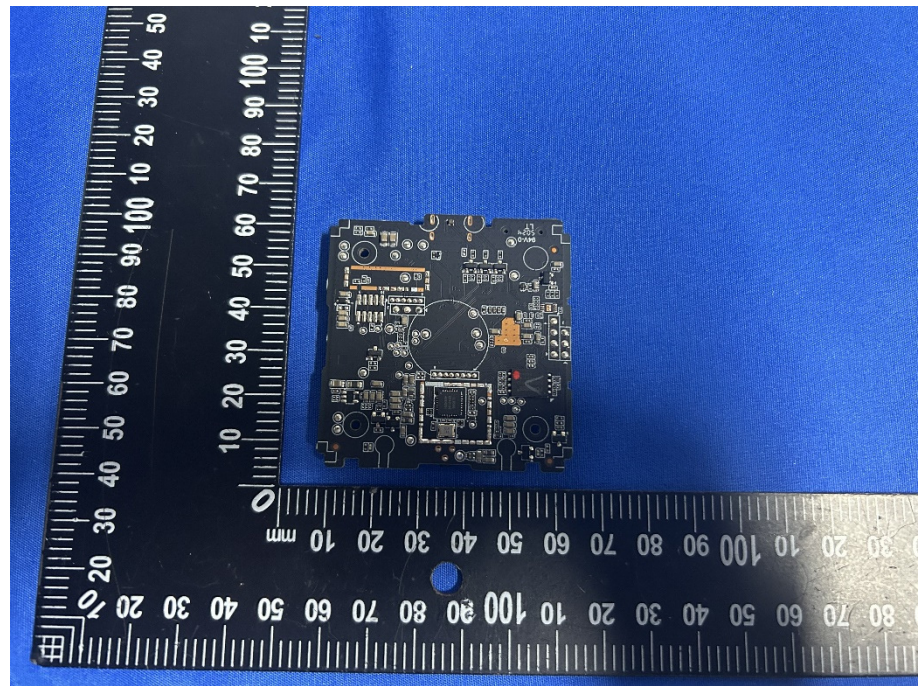

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

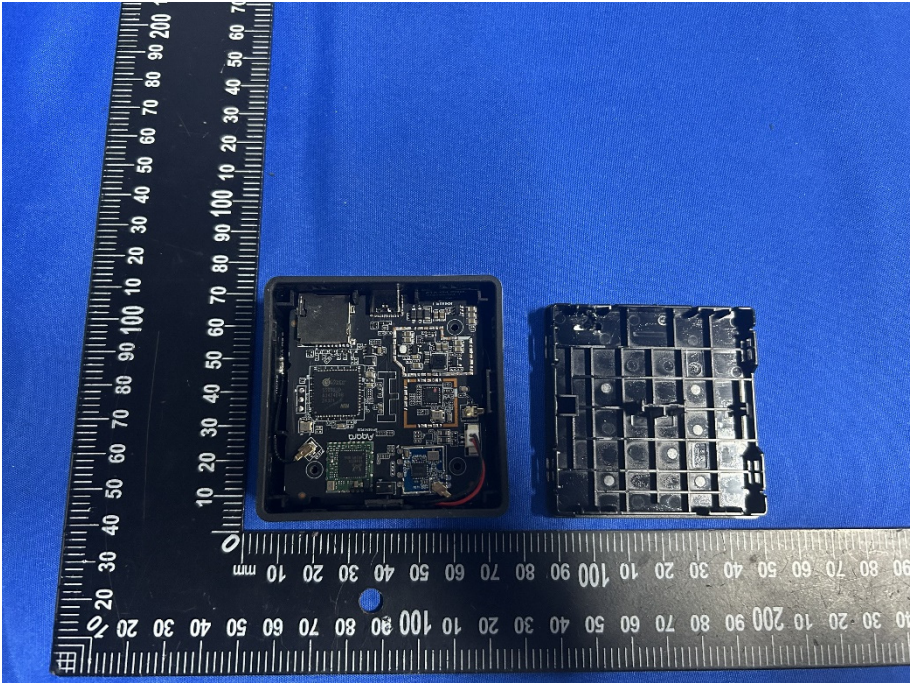

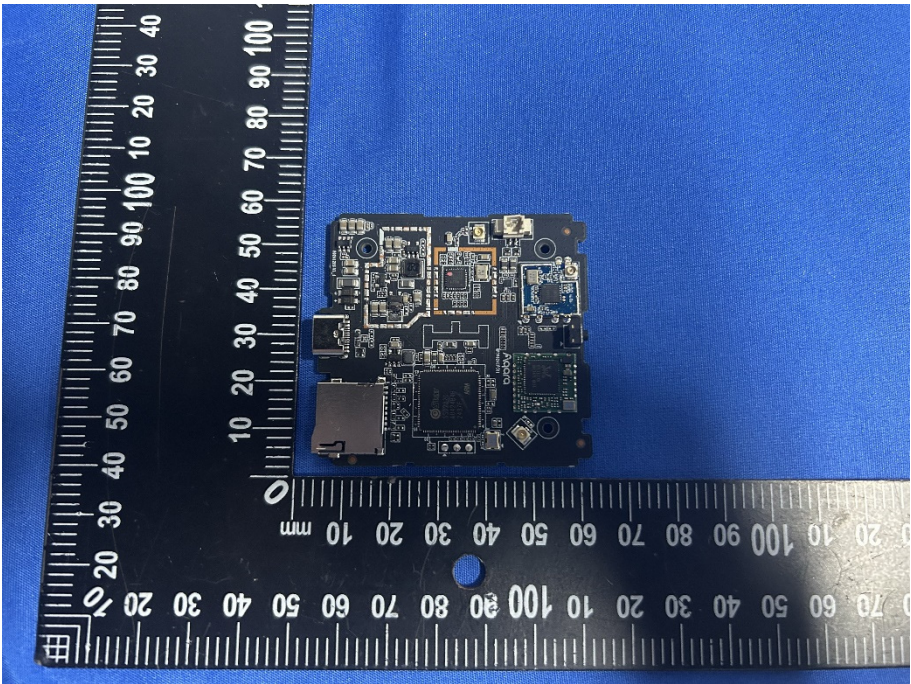

Model: CH-C11E(black)

EUT Housing and Board View 1	 A photograph showing the internal components of the EUT housing. On the left is the black plastic housing, and on the right is the printed circuit board (PCB) populated with various electronic components. A black L-shaped ruler is placed next to the components for scale, with markings in millimeters and centimeters. The background is a blue fabric surface.
Solder Board-Component View 1	 A close-up photograph of the PCB component, showing the solder joints and various electronic components. A black L-shaped ruler is placed next to the component for scale, with markings in millimeters and centimeters. The background is a blue fabric surface.

Model: CH-C11E(gray)

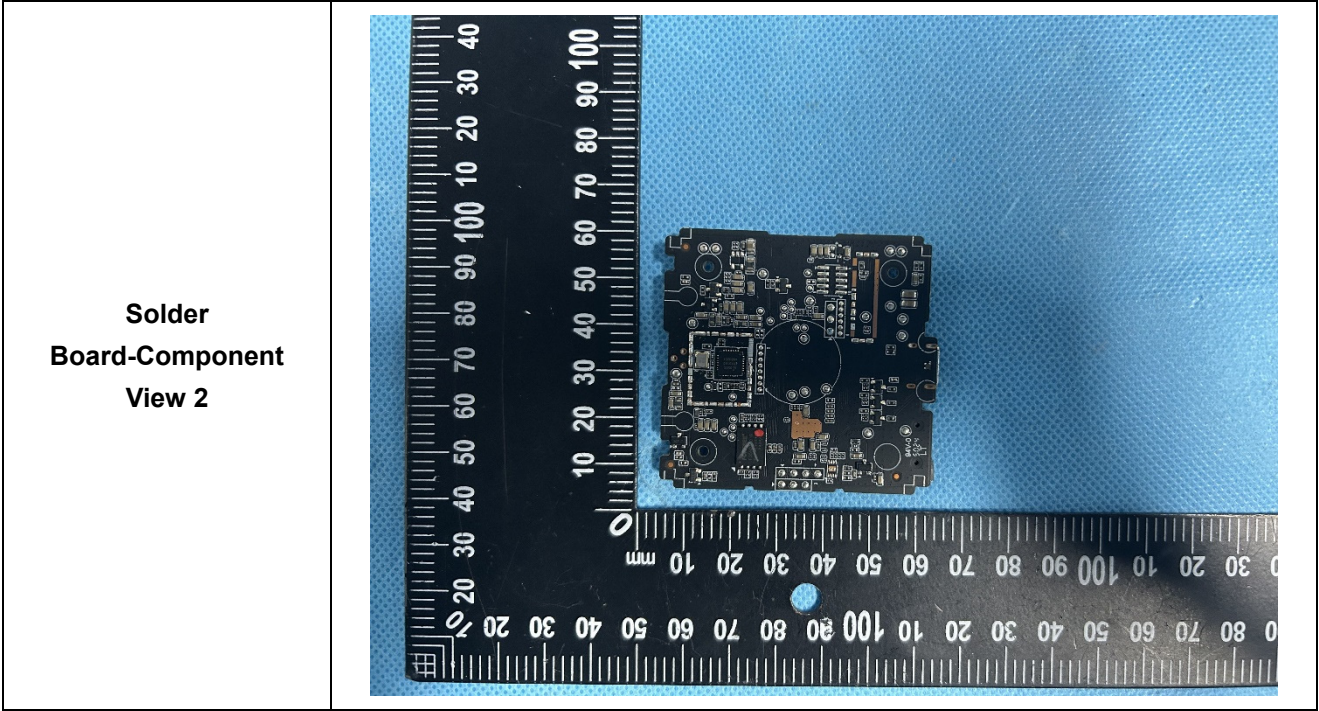

EUT Housing and Board View 1	 A photograph showing the EUT housing and board. The housing is a black plastic enclosure, and the board is a green printed circuit board (PCB) with various electronic components. A black ruler with white markings is placed vertically to the left of the components for scale. The background is a blue surface.
Solder Board-Component View 1	 A photograph showing the solder board-component view. The board is a green printed circuit board (PCB) with various electronic components. A black ruler with white markings is placed vertically to the left of the component for scale. The background is a blue surface.

Model: CH-C11D(black)

EUT Housing and Board View 1	 A photograph showing the EUT housing and board. The housing is a black plastic enclosure with a grid of circular indentations on the back. The board is a printed circuit board (PCB) with various electronic components, including a large integrated circuit (IC) and several smaller components. A black ruler with white markings is placed horizontally below the components for scale.
Solder Board-Component View 1	 A photograph showing the solder board-component view. The board is a printed circuit board (PCB) with various electronic components, including a large integrated circuit (IC) and several smaller components. A black ruler with white markings is placed horizontally below the components for scale.
