Solder Board-Component View 6	 A photograph of a small electronic component, likely a module, placed on a blue surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters. The component itself is dark with various electronic components, including two circular components (possibly microphones or speakers) and a small white rectangular component. The ruler shows the component is approximately 100mm wide and 50mm high.
Antenna View 1	 A photograph of the same electronic component as in the first image, placed on a blue surface. A black ruler with white markings is positioned vertically to the left of the component. Two red boxes highlight specific areas: one at the top of the component and another on the left side. Red lines connect these boxes to labels. The top box is labeled "Bluetooth/Thread Ant." and the bottom box is labeled "Radar Ant." The ruler shows the component is approximately 100mm wide and 50mm high.
