User Manual

Antenna	
Frequency Range:	2.4GHz
Antenna Type:	PCB Antenna
Antenna Gain:	+1.6dBi
Transmission Power:	< -1dBm
Remote Control Distance:	> 10M
Ambience Temperatures:	-40°C to 85°C

Operating Instruction: The main product (air compressor) is operated by 12V DC battery or power supply. By pressing the ON/OFF button of the wireless remote control, it will launch a signal in 2.4GHz band. This will turn the relay in the main product (air compressor) ON or OFF for tyre inflation after received the signal.

Wireless Remote Control (FCC ID: 2AKJ8-MMACRC):

This device was tested after assembly and complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may caused undesired operation.

Attention that changes or modification not expressly approved by the party responsible for compliance could void the user’s authority to operate the equipment.

Note: This product has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This product generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this product does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
