Infrared remote control

3. Installation

① Plug TV Dongle into HDTV

Connect to a HDCP 2.2 port for optimal 4K streaming.

② Power in 2 options

Option A: Using a wall adapter. Option B: Power by your TV's USB port.

③ Connect to internet and enjoy

4. Tips and Troubleshooting

USB power in

Some TV's USB port is insufficient to support 5V=1A, if your TV stick does not perform correctly, please use a wall adapter or try to use other USB port on your TV.

Bluetooth Pairing

Make sure the Bluetooth connection is working properly. Enter the Bluetooth matching interface to pair the Bluetooth.

Wi-Fi connecting

Ensure your internet connection is working properly. Restarting your router and modem will solve most Wi-Fi network Issues. Connectivity performance depends on distance from router and TV dongle, do not place the TV dongle in a cabinet, as it may impact Wi-Fi signal strength.

5. Product Specifications

Dcolor TV Dongle 4K

Model : GD1 4K
Power input: 5V= 1A

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co - located for operating in conjunction with any other antenna or transmitter.
