PETBLE SmartTag Instruction Manual

Start Using SmartTag

Charging SmartTag

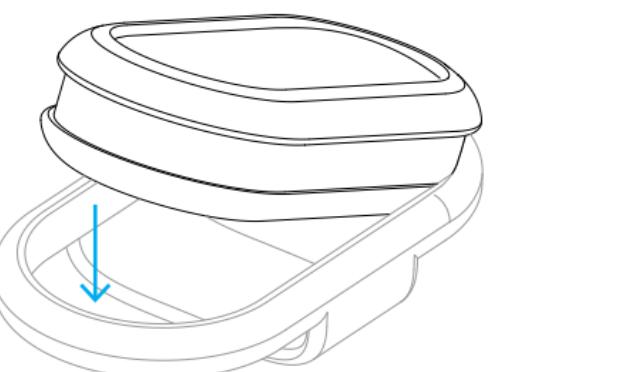

Pairing SmartTag

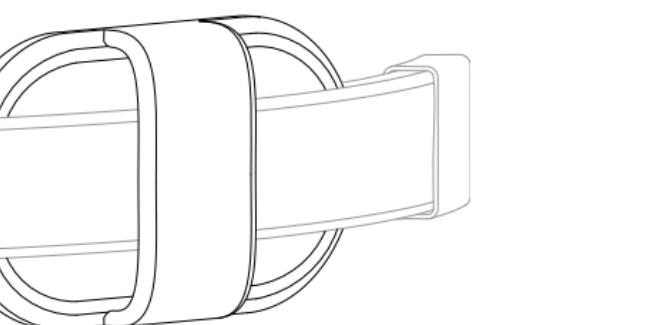

PETBLE SmartBowl and SmartTag are designed to work with the PETBLE app which synchronizes and analyzes the data collected from them. You can download iOS and Android versions of the app from [Apple's App Store](#) and [Google's Play Store](#) respectively. Once installed, you can follow instructions from the app to pair both devices with your smartphone. For your convenience, the QR code to the store is provided above.

1. Push the SmartTag into the charging slot.
Green Light: Indicates the SmartTag is charging
No Lights: Indicates the SmartTag is fully charged

How to wear the SmartTag

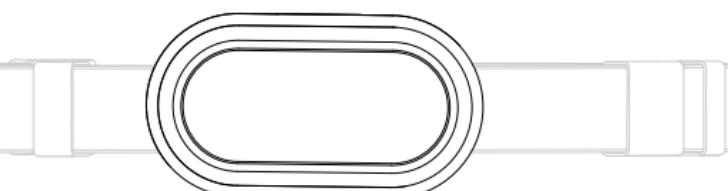

1. Attach the SmartTag to the silicone ring

2. Attach the silicone ring to the collar

How to wear the SmartTag

3. Wear the collar around the pet neck with the smartTag at the right position
4. Tie the leash to the collar for walk

Terms of Use and Limitation of Liability

Terms of Use

FCC Caution

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment .

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
