

## AST8300B FCC ID Label Sample

This label is done through laser engraving over the camera aluminum body. It appears white on black background.

Because of limited available space and the minimum font size for the used marking technology the following compliance statement cannot be placed on the product.

*"This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:*

- (1) This device may not cause harmful interference, and*
- (2) this device must accept any interference received, including interference that may cause undesired operation."*

So the compliance statement it is placed in the "Important Notice" paper included in the box in which the device is marketed.
