

Operating Instructions

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

[1] This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: **Adjust or relocate the receiving antenna, Increase the distance between the equipment and receiver, Connect the equipment to an outlet on a circuit different from that to which the receiver is connected, Consult your dealer or an experienced radio/TV technician for help.**

[2] **FCC CAUTION:** Do not make any changes or modifications to this product without the prior express written approval of iZotope, Inc. Any changes or modifications made without express written approval by the party responsible for compliance could void the user's authority to operate this product.

[3] This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines. This equipment should be installed and operated keeping the radiator at least 20 cm or more away from a person's body.

[4] Only iZotope's supplied power adapter should be used to connect the equipment to power.
