☐ Short Term	☐ Permanent	User's Manual

* see additional details below

Safe-Com Wireless has spent substantial effort in developing this product and it is one of the first of its kind in industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

Permanent Confidentiality:

The applicant requests the exhibits listed above as permanently confidential be permanently withheld from public review due to materials that contain trade secrets and proprietary information not customarily released to the public.

NOTE for Industry Canada Applications:

The applicant understands that until such time that IC distinguishes between Short Term and Permanent Confidentiality, either type of marked exhibit above will simply be marked Confidential when submitted to IC.

Sincerely,

By:

(Signature/Title)

George Yang - Agent
(Print name)

The following additional description is provided for the Long-Term Confidentiality request for the Internal Photos Exhibit request:

- 1) Internal photos are not published in User Manuals. The user does not need to access these photos to operate the equipment properly. The Graphical User Interface is what is used to control the unit and make the proper settings for safe operation.
- 2) There are no user serviceable parts inside the unit. All service requiring disassembly of the unit requires the unit to be returned to the factory. Any user access inside the unit would void the warranty.
- 3) All sales of the device is subject to proprietary information protection by the authorized installer and the end-user.
- 4) This device is not accessible to the public. An Non-Disclosure Agreement (NDA) is required in order for a technician to have access to install/service the device if performed by someone other than Safe-com Wireless. A sample of the NDA is attached.
