! NOTE:
Any operation or adjustment against the product manual may cause serious laser radiation or other danger situation.

CLASS 1 LASER PRODUCT

This device is classified as Class I laser product. While using the device, please strictly follow this user manual, otherwise laser radiation may be caused.

This device is manufactured strictly in compliance with the China Compulsory Certification standard, and has obtained CCC mark.

Specifications

Model	FOCUS-D200
Frequency response	60Hz-16KHz, ±3dB
Signal to Noise Ratio	>57dB
Total Harmonic Distortion	<1.5%
MP3, link input	650mV
Rated Voltage	5V~2A
Tuning range	87.5~108MHz
Power	10W
Material	PC+ABS
Dimension	168x168x40mm
Weight	1.2kg

Kind Remainder:

1.When reading files from multiple directories (such as MP3, AVI, USB flash drive):

FCC Caution.

(1) § 15.19 Labelling requirements.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

§ 15.21 Changes or modification warning

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

§ 15.105 Information to the user.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the
instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of
the following measures:

-Reorient or relocate the receiving antenna.

-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-Consult the dealer or an experienced radio/TV technician for help.

RF warning for Mobile device:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
