Attention: The remote control car product is the same manual for reference only. The remote control car product is divided into three different configurations.

● Electronic control products are not suitable for children aged 3 and above. Please use them under adult supervision.

● Warning: Please do not disassemble or modify this product without authorization, any changes may cause the product to malfunction.

● This manual is applicable to the introduction of a series of products on our company's website. If there are any questions, please refer to the specific configuration. Check the configuration of the packaging box.

The product body uses one rechargeable battery, and the voltage is 3.7V.

The remote control uses 2 1.5V AA non rechargeable batteries.

2. The removal and installation of batteries should be operated correctly according to the following steps.

3. Non rechargeable batteries are not rechargeable.

4. Rechargeable batteries are rechargeable.

5. Rechargeable batteries should be removed from toys before charging.

6. Different types of batteries or old and new batteries cannot be mixed.

7. Only use the specified type of battery, and only one type of battery can be used.

8. When using the battery, it should be removed from the toy. If not used for a long time, please remove the battery from the toy.

9. The power terminal shall not be short circuited.

10. Use the remote control to charge the battery compartment cover, install the battery according to the correct positive and negative polarity, and then close the battery compartment cover with a knife and remove the battery.

11. Maintenance and upkeep: This product is composed of plastic, hardware, and electronic components, and should not be immersed in water or stored for a long time.

Please use it in a humid environment, regularly check for missing wires, plugs, casings, and other components. When defects are found, use should be stopped until they are repaired correctly.

3. Introduction to the remote control function of the gamepad

4. Introduction to the remote control function of the watch

5. How to Charge

6. Signal Reception

7. Abnormal protection

3. AC remote control frequency matching instruction

1. Turn on the battery on the remote control, and the indicator light on the remote control will start flashing. Turn on the switch after the remote control successfully connects to the car. If the indicator light on the remote control does not successfully connect to the car, please repeat the operation.

2. Turn on the power switch of the remote control to turn on the remote control vehicle, and once successfully connected, each vehicle will not interfere with each other. Note: If the indicator light on the remote control does not turn on after turning on the car for one minute, the remote control did not detect the 2.4G signal emitted by the car. Please turn on the power switch of the remote control again and repeat the operation.

3. If the indicator light on the remote control does not turn on after turning on the car for one minute, the remote control did not detect the 2.4G signal emitted by the car. Please turn on the power switch of the remote control again and repeat the operation.

4. When pairing with other remote controllers or remote control vehicles of the same series, please turn on the power switch of the remote control again and repeat the operation.

5. When the remote control is not connected to the car, please turn off the power switch of the remote control again and repeat the operation.

7. Important Notice

1. When operating the toy C series, please be careful not to cause damage to furniture or glass.

2. Please do not play with remote-controlled cars on roads or in crowds to avoid danger.

3. Do not play with remote-controlled cars outdoors and heating thunder.

4. Do not litter or callous the remote control car.

5. Please do not play with remote-controlled cars away from sources of fire and heat.

6. This car adopts complex electronic circuits and a large number of components.

7. When the remote control car is covered with soil and dust after playing, it should be cleaned in time.

8. Do not put toys in water, as it can damage electronic components.

9. Please keep the remote control and instructions contain important information, please keep them properly.

10. Playing with remote control cars indoors, please be careful not to cause damage to furniture or glass.

11. Do not play with remote-controlled cars towards people.

12. Do not litter or callous the remote control car.

13. Please do not play with remote-controlled cars away from sources of fire and heat.

14. This car adopts complex electronic circuits and a large number of components.

15. When the remote control car is covered with soil and dust after playing, it should be cleaned in time.

16. Do not put toys in water, as it can damage electronic components.

17. Please keep the remote control and instructions contain important information, please keep them properly.

8. Maintenance matters

1. Keep away from fire sources, avoid direct sunlight, high temperature and humidity, or keep in the car for a long time to avoid short circuits in the circuit board.

2. When not playing, remove the batteries from the car and remote control, and place them in a dry, cool, and well-ventilated place to avoid damage.

3. When not playing, remove the batteries from the car and remote control, and place them in a dry, cool, and well-ventilated place to avoid damage.

4. When the remote control car is covered with soil and dust after playing, it should be cleaned in time.

5. Please remove the batteries from the car and remote control when not in use to prevent damaging battery life.

9. Safety

1. Please do not touch the wheels of the remote control car with your hands to avoid injury.

2. Please do not touch the wheels of the remote control car with your hands to avoid injury.

3. Please do not touch the wheels of the remote control car with your hands to avoid injury.

4. Please do not touch the wheels of the remote control car with your hands to avoid injury.

5. Please do not touch the wheels of the remote control car with your hands to avoid injury.

6. Please do not touch the wheels of the remote control car with your hands to avoid injury.

7. Please do not touch the wheels of the remote control car with your hands to avoid injury.

8. Please do not touch the wheels of the remote control car with your hands to avoid injury.

9. Please do not touch the wheels of the remote control car with your hands to avoid injury.

10. Please do not touch the wheels of the remote control car with your hands to avoid injury.

11. Please do not touch the wheels of the remote control car with your hands to avoid injury.

12. Please do not touch the wheels of the remote control car with your hands to avoid injury.

13. Please do not touch the wheels of the remote control car with your hands to avoid injury.

14. Please do not touch the wheels of the remote control car with your hands to avoid injury.

15. Please do not touch the wheels of the remote control car with your hands to avoid injury.

16. Please do not touch the wheels of the remote control car with your hands to avoid injury.

17. Please do not touch the wheels of the remote control car with your hands to avoid injury.

18. Please do not touch the wheels of the remote control car with your hands to avoid injury.

19. Please do not touch the wheels of the remote control car with your hands to avoid injury.

20. Please do not touch the wheels of the remote control car with your hands to avoid injury.

21. Please do not touch the wheels of the remote control car with your hands to avoid injury.

22. Please do not touch the wheels of the remote control car with your hands to avoid injury.

23. Please do not touch the wheels of the remote control car with your hands to avoid injury.

24. Please do not touch the wheels of the remote control car with your hands to avoid injury.

25. Please do not touch the wheels of the remote control car with your hands to avoid injury.

26. Please do not touch the wheels of the remote control car with your hands to avoid injury.

27. Please do not touch the wheels of the remote control car with your hands to avoid injury.

28. Please do not touch the wheels of the remote control car with your hands to avoid injury.

29. Please do not touch the wheels of the remote control car with your hands to avoid injury.

30. Please do not touch the wheels of the remote control car with your hands to avoid injury.

31. Please do not touch the wheels of the remote control car with your hands to avoid injury.

32. Please do not touch the wheels of the remote control car with your hands to avoid injury.

33. Please do not touch the wheels of the remote control car with your hands to avoid injury.

34. Please do not touch the wheels of the remote control car with your hands to avoid injury.

35. Please do not touch the wheels of the remote control car with your hands to avoid injury.

36. Please do not touch the wheels of the remote control car with your hands to avoid injury.

37. Please do not touch the wheels of the remote control car with your hands to avoid injury.

38. Please do not touch the wheels of the remote control car with your hands to avoid injury.

39. Please do not touch the wheels of the remote control car with your hands to avoid injury.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
