

70.00 mm

1. How to wear

2. Earbud Over

3. How to use

Charging the battery before use is recommended but not required.

a. Pair 1 Device

- 1) Make sure S570 earbud and your Bluetooth device are next to each other.
- 2) Press and hold the multifunction button for approximately 5 seconds until the LED indicator flashes Red and Blue alternately (earbud is tiny, try NOT to block the view of LED indicator with your thumb), you should hear a voice prompt "ready to pair", the earbud is now in pairing mode.
- 3) Activate Bluetooth function on your smartphone and search for nearby Bluetooth connection:
For iPhone: Settings>Bluetooth>On;
For Android: Setting>Wireless & Networks>Bluetooth: On>Scan for devices;
- 4) Find "S570" in the search results. Tap the name to connect. Once connected, you should hear a voice prompt indicating the device is connected.

b. Pair 2 Device

Multipoint technology allows you to pair 2 devices

- 1) Follow a. Pairing section to pair with first device.

70.00 mm

2) Turn off the Bluetooth fuction of your first device. Follow a Pairing instructions again to pair and connect to your second device.

3) Now turn on Bluetooth fuction of the first device. Restart the S570 Earbud. It will automatically connect with both devices at the same time.

Working Time	5.5-6.5 hours for music (50% volume)
Charging Time	1.5 hour
Charging Input	USB 5V
Dimension(L*W*H)	0.8 x 0.6 x 0.5 in
Weight	0.13 oz

FCC warnings:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This modular complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
