A Quick Look

Charging the Headphone

- To charge the headphone, attached the small end of the usb cable to the charging port located on the headphone.
- Attached the other end to the USB port on a computer, USB charging adapter.
- A RED light will turn on while the headphone is charging and turn BLUE once charging is complete.

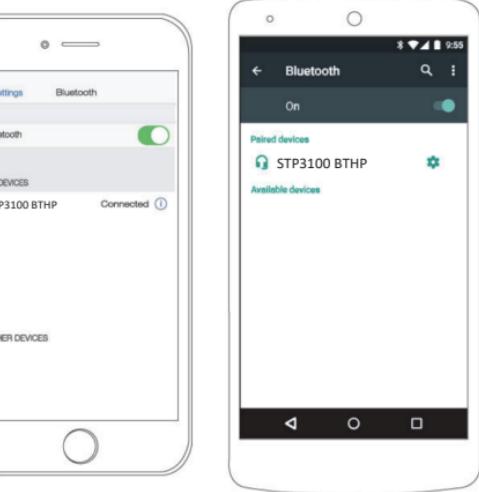

Pairing the Headphone

- When you turn your headphone on, it will start to flash Red and Blue alternately.
- Open your smartphone's Bluetooth menu to enable Bluetooth and search for Bluetooth devices. Select "STP3100 BTHP" from the list of devices.
- After successfully pairing, you will hear a voice prompt from the headphone.

On an iOS or Android Device

Go to **SETTING>BLUETOOTH**

(Make sure Bluetooth is turned ON)

Controls

Power On/Off

To turn on the product, hold down the power button. Hold down the button again to turn off the product.

Play/Pause music

When playing music, press the Play/Pause button to pause the music, press again the same button to resume playing the music.

Volume + / Next track

Press the Volume + / Next track button to increase the music volume. Hold down the same button if you want to advance to the next track.

Volume - / Previous track

Press the Volume - / Previous track button to decrease the music volume. Hold down the same button if you want to return to the previous track.

Call controls

When receiving an incoming call, press the Call button once to accept call, press again to decline call. If you press and hold the Call button, it will reject the incoming call instead of picking it up.

Voice assistant

If the headphone is connected to a smartphone with a voice assistant enabled (Such as Siri for iOS or Google Assistant for Android), you can activate the voice assistant from your headphone by pressing and holding the Call button.

Specifications

- Bluetooth Version: v5.3
- Transmission range:10m
- Battery capacity: 160mah
- Charge time: approx 2H
- Play time: approx 20 H

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement.
The device can be used in the portable exposure condition without restriction.

FCC ID: 2AL9B-STP3100

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
