

1

Introduction:

Congratulations! You have owned our high quality and leading sport wireless headset. With it, you can easily enjoy music streaming and won't miss your call anytime anywhere, even in the gym or office. And it can be widely used for cell phones, tablets, PCs, and all other BT devices.

Remote & Buttons:

Power On:

Press and hold MFB for 3seconds, until you hear Power on voice prompt and the blue LED indicator turns on. Note: The headset will automatically connect to the latest connected device when powered on.

Power Off:

Press and hold MFB for 3seconds, until you hear Power off voice prompt and the red LED indicator flashes quickly then goes out.

2

Pairing Steps:

1 . Press and hold MFB for 5 seconds, until you hear ready to pair voice prompt and blue and red LED indicators flash alternately.

2 . Switch on BT setting on your device, and search for available BT device ID.

3 . Click on the device ID YS-1 after you have find it. Once you hear pairing completed and the blue LED indicator keeps on, congratulations! They have successfully paired

Note 1: You can also go to pairing mode by press and hold Volume+ and Volume- concurrently when the headset is powered on

Note 2: The headset is so smart that it will automatically resume connection with your device once your device has returned to 33ft / 10m transmission distance.

Connect 2 Devices at the Same Time:

- 1 . Connect with the first device normally by the above pairing steps.
- 2 . Disconnect the connection by selecting cancel pairing option on your device.
- 3 . Press and hold Volume+ and Volume- concurrently to go to pairing mode.
- 4 . Then you can use the above normal way to pair with your second device successfully.
- 5 . Click device ID YS-1 again on your first device to make it resume connection. Now you can find the headset has connected with both 2 devices already. Congratulations! You made it!

3

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- - Reorient or relocate the receiving antenna.
- - Increase the separation between the equipment and receiver.
- -

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- - Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
