USB-C Charging Cable

A Closer Look

Charging

Insert one end of the included charging cable into the charging port. Insert the other end of the USB cable into a suitable USB charging adapter (Not Included).

While charging, the case's Indicator Light will flash red. When fully charged, the Indicator Light will stay a solid red.

Note:

Make sure that both the earbuds and charging case are fully charged before first use.

Battery Warning

CAUTION

-This device is equipped with an integrated lithium ion battery. The battery cannot be replaced.
Do not attempt to remove the battery from the device.
-Do not dispose of in fire or expose to excessive heat.
-Do not crush, puncture, incinerate, or short circuit external contacts.
-Please recycle or dispose of the battery properly. Contact your local recycling facilities and/or the manufacturer for further information.

Powering On

For the first use, remove the earbuds from the case and any stickers (if applicable) covering the earbuds' charging contacts. Next, place the earbuds back into the case and remove them from the case. This will activate the earbuds.

To turn off the earbuds, place them into the case. To turn on the earbuds, remove them from the case.

NOTE: You can manually turn on and off the earbuds. Press and hold both earbud's touch area for approximately three seconds to power on. Disconnect earbuds and phone first, Then press and hold both earbud's touch area for up to five seconds to power off.

If the LEDs do not turn on when the earbuds are removed from the case, charge the case then try again. In the event that the earbuds do not pair together, perform the Manual Reset function.

Notes

Notes

FCC ID: 2ALHZK56

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
