A black power adapter and a black power cable are shown on a blue surface. The power adapter is a small, black, rectangular device with two prongs for AC power. It features a USB Type-A port on the front. The power cable is black and has a USB Type-A connector at one end. A ruler is placed horizontally below the items, showing measurements in centimeters and inches. The adapter is approximately 10 cm long and 5 cm wide. The cable is coiled and extends to about 20 cm.
