Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

To whom it may concern:

Infoscan S.A., hereby requests a Permissive Change Class II of the radio equipment certification for the MED Recorder certification number, FCC ID: 2ALKP-MED-RECORDER. This product differs from the originally approved product in the following manor:

- (a) Antenna Characteristics. – Please list if there are any changes or state that there are no changes to this section.

With our product we use Taoglas antenna (Manufacturer part no. FXP14.07.0100A).

I do attest that the Field strength and/or RF Output readings remained the same or are lower than the originally approved product and that they did not increase therefore qualifying this product for this application type.

Sincerely,

Bartosz Turczynowicz
Vice-President
Infoscan S.A.
