### GENERAL SUPPORT

If you would like to review our user guide or have questions regarding this Currant Smart Outlet, go to [www.currant.com/support](https://www.currant.com/support).

### 1 YEAR LIMITED WARRANTY

For limited warranty information, please visit: <https://www.currant.com/warranty>, call us at (844)-4CURRANT, or send a self-addressed stamped envelope to:  
Currant, P.O. Box 60193, Palo Alto, CA, 94306 USA

### HOW TO CHANGE THE ORIENTATION

To change the orientation of this Smart Outlet, pull the ridged area ① on the rear away from the plug, then tilt the back plate ② away from the ridged area.

Rotate and reinsert the back plate, tilting away from the ridged area. Push down on the back plate until the ridged area snaps back into position.

### FCC NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the distance between the equipment and the receiver
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference, including interference that may cause undesired operation.

### FCC RADIATION EXPOSURE STATEMENT

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 20 cm during normal operation.

### SAFETY

Currant recommends using this Currant Smart Outlet only according to the recommended usage under Technical Specifications. If the equipment is used in a manner not specified by Currant, the protection provided by the equipment may be impaired. Please refer to <https://www.currant.com/support>

Please read all safety and operating instructions before using your Currant Energy Meter to avoid injury. Keep these instructions somewhere you can find them for future reference.

- For indoor use only
- DO NOT use in wet or damp areas
- DO NOT exceed the recommended electrical ratings
- DO NOT remove ground pin (middle pin), nor use with any ground adapter
- DO NOT use with devices that should not be operated unattended
- DO NOT use with medical or life support equipment
- DO NOT use in locations with flammable gases or fumes
- DO NOT clean with liquid; to clean, unplug from wall and wipe with dry cloth
- Remote control of appliances may result in unintentional or automated activation of power
- Disassembling the product or making repairs will void the warranty and risks electric shock. If you need service, please contact us

Altitude: 2000 meters (6500 feet) maximum  
Pollution degree: 2  
Operating ambient temperature: 5° - 40°C (41° - 104°F)  
Nominal operating voltage: 120VAC (±10%)  
Operating voltage range: 108-132VAC

DO NOT plug the back plate into an outlet by itself. You run the risk of electric shock. If you accidentally plug in the back plate by itself, turn off the circuit breaker servicing the outlet before attempting to remove the back plate.

THIS PACKAGING IS RECYCLABLE
