

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and
Board View 1**

**EUT Housing and
Board View 2**

Solder Board-Component View 1	 A top-down photograph of a blue printed circuit board (PCB) assembly. The board is populated with various electronic components, including several integrated circuits (ICs), capacitors, and resistors. A black ruler is placed horizontally across the top of the board, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The board is labeled with 'STCB6223A V2.0.1' and 'SUTA'.
Solder Board-Component View 2	 A close-up photograph of a component on the blue PCB. The component is a small, rectangular integrated circuit (IC) with a gold-colored package. It is surrounded by various surface-mount components, including capacitors and resistors. The PCB is labeled with 'DC29V' and '8.000 MHZ'.

Solder Board-Component View 3	 A photograph of a blue printed circuit board (PCB) with various electronic components. The board is positioned next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left and horizontally at the bottom. The PCB is rectangular and features several surface-mounted components, including what appears to be a microcontroller, memory chips, and various passive components. The solder joints are visible on the components.
Antenna View	 A photograph of the same blue PCB, showing the antenna components. Two red boxes with labels are overlaid on the image. The first box, labeled "BLE Ant.", points to a small, rectangular antenna module located near the top left of the board. The second box, labeled "2.4GHz Ant.", points to a larger, rectangular antenna module located near the bottom right of the board. The ruler is also present in this view, providing a scale for the components.
