AT&T Essentials Black 3-in-1 Portable Charging Stand

Specifications

Part No: PAS3A0000B024ZS	Input voltage: 5V/3A, 9V/3A
Input power: 27W (MAX)	Output power: 15W/10W/7.5W/5W
Dimensions: 71x71x25mm	Charging efficiency: 70%-80%

Package Contents

- 3-in-1 Portable Folding Charging Stand
- USB-A to USB-C Cable
- User Manual

Safety Precautions

1. Keep charger away from water and other liquids.
2. Always turn charger off before cleaning it.
3. Use charger in environments between 32°-110°F.

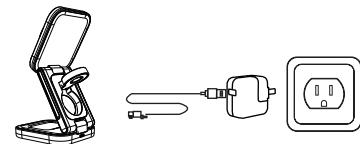

Applicable Devices

1. Devices with built-in quick charge or normal charge wireless receivers.
2. Devices with external wireless charging receivers.
3. Devices with wireless charging receivers built into their protective cases.

Note: All devices must support Qi wireless charging standards.

Instructions for Use

1. **Setup:** Connect the wireless charger to a power source (not included) using the provided cable. The blue light will blink three times and then turn off, indicating the charger is in standby mode.

2. **Charging:** Place your device (phone, earbuds, or Apple Watch) on the center of their respective chargers to begin charging.

3. Indicator Lights:

- **Standby:** Light is green.
- **Headphones and Phone Charging Together or Separate:** Light is blue when charging.
- **Watch Charging:** Light is green when charging. Apple Watch may need more time to charge if the battery is dead. Charging the watch when its battery is around 10% is recommended.

FCC Warning

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. The equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

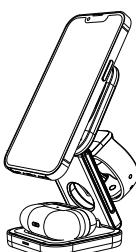

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by the manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
