WARNINGS, CAUTIONS & LEGAL INFORMATION

- To reduce the risk of fire or electric shock, do not expose the CALIFORNIA ROLL to rain or moisture while charging.
- The CALIFORNIA ROLL should not be placed on or near it while being charged or charging other devices.
- As with any electronic products, use care not to spill liquids into any part of the product. Liquids can cause a failure and/or a fire hazard.
- Make no modifications to the product or accessories, unauthorized alterations may compromise safety, regulatory compliance, and system performance and will void the warranty.
- Do not place any flame sources, such as lighted candles, on or near the CALIFORNIA ROLL.
- Do not continue charging the battery if it does not reach full charge within the specified charging time.
- Overcharging may cause the battery to become hot, rupture, or ignite. If you see any heat deformation or leakage, properly dispose of the battery.
- Do not attempt to charge the battery in temperatures outside the range of 0°C-40°C / 32°F-105°F.
- Do not expose the product or battery to excessive heat, including fire and storage or use inside cars in hot weather, where it can be exposed to temperatures in excess of 60°C / 140°F.
- Do not step on, throw, or drop batteries or the power supply or device, or expose them to a strong shock. Do not pierce, crush, dent, or deform the batteries or power supply in any way, if either becomes deformed, properly dispose of it.
- Do not short-circuit batteries. Do not attempt to service the CALIFORNIA ROLL yourself. Opening or removing covers may expose you to dangerous voltages or other hazards and will void the manufacturer's warranty.

FCC Statement - This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference caused by undesired operation. The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE: Any changes or modifications not expressly approved by LEMON could void the user's authority to operate the equipment. Caution: FCC Radiation Exposure Statement. This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm / 8 in between the radiator and any part of your body.
