Getting to Know Your Camera

Standard Accessories

4K Ultra HD Camera
Battery
Charger
USB Cable
DV Pouch

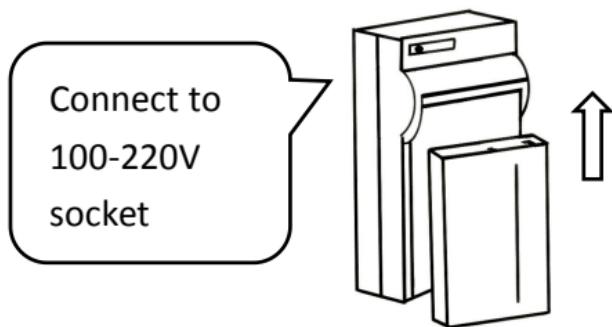

Infrared remote control
HDMI Cable
User Manual
Warranty Card

The above are all accessories, if there is any missing, please contact the seller for replacement.

Charging the Battery

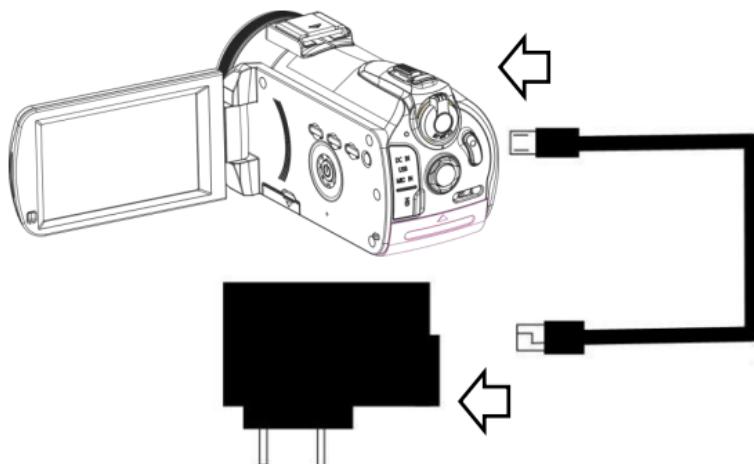

Before using the camera, you must load and charge the battery

Charging with the Charger

1. Insert the battery into the charger to charge it, the indicator light will be red when charging.
2. The indicator light will turn green when the charging is completed.

Charging with USB Cable (Direct Charge)

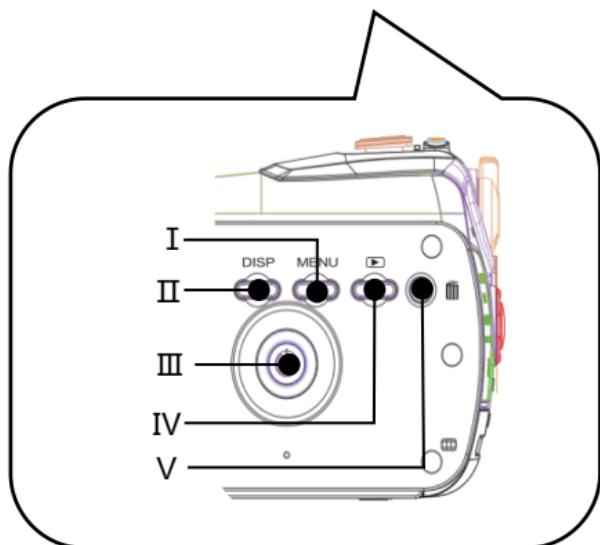

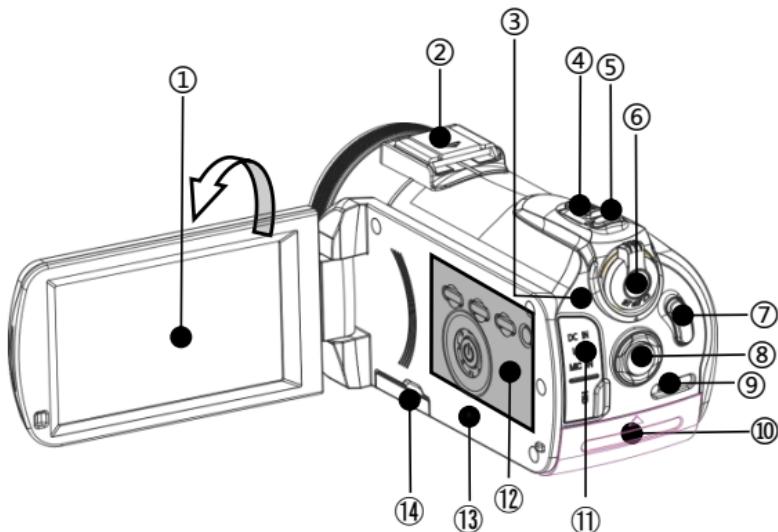

1. Please Connect the USB Cable to the charging adapter when camera is running low.
2. Connect the other side to the Camera's USB charging interface
3. The indicator light will be red when charging; The indicator light will turn green when the charging is completed.

Note:

1. When using the charger, please install the battery in the charger slot correctly.
2. For direct charge, please use the 5V/2A-2.5A charging adapter for charging.

Component Introduction

Rear View

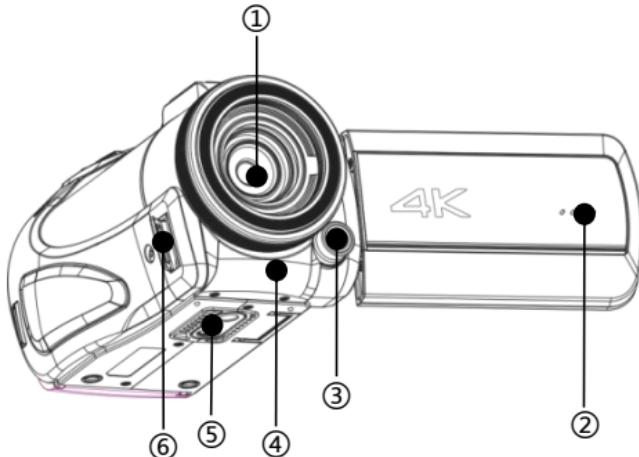

For the function description of the related parts in the above figure, please refer to the following table.

No.	Name	Function description
①	IPS Touch Panel	Screen preview and video/photo playback
②	Hot shoe interface	Mount hot shoe products
③	State Light	Display of mode status
④	T/W Zoom Button	In video/Photo Mode, pull left/right to zoom in/out In Playback Mode, pull to switch photos/videos In Menu, pull to menu selection. In Video Playback, pull to adjust the volume
⑤	Photo Button	Two-stage button, tap to focus and press to photo in photo mode
⑥	Mode dial	Record、Photo、Setting Mode : SET Stands for Setting Mode  Stands for Record Mode  Stands for Photo Mode
⑦	Video Button	1.“START/STOP”is the recording/stop button 2.Stop playback when the video is playing
⑧	Night Vision Switch	Turn on/off the Night Vision
⑨	Battery compartment switch	Toggle to the right to open the battery compartment

⑩	Battery Compartment	Load NP-120 Battery
⑪	I/O Interface	5PIN Micro USB interface : Access the USB Cable to charge; HDMI : External HD Cable to connect to TV; MIC:Connect to an external microphone
⑫	Menu Button	Press to enter the Menu
	DISP Button	Press to switch screen display mode
	Power Button	Power On/Off
	Playback Button	Press to enter the playback mode
	“Delete” Shortcut	Press to delete recent videos or photos
⑬	Built-in microphone	Recording sound
⑭	Micro SD slot	Open and insert the Micro SD Card

Front View

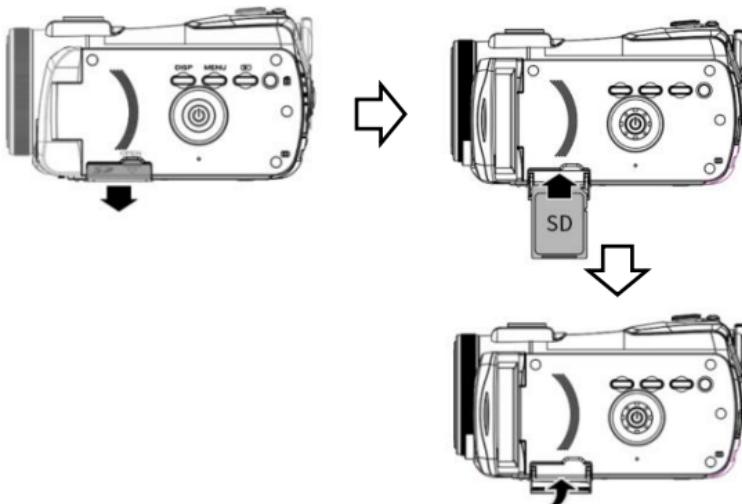

For the function description of the related parts in the above figure, please refer to the following table

No.	Name	Function Description
①	Lens	Framing
②	Horn	Plays back sounds
③	IR Night Vision light	Infrared Light
④	Infrared remote-control receiver	Receiving remote command
⑤	1/4 Tripod Socket	Tripod installation
⑥	Hand strap mounting hole	Install adjustable hand strap

Getting Started

Inserting an Micro SD Card

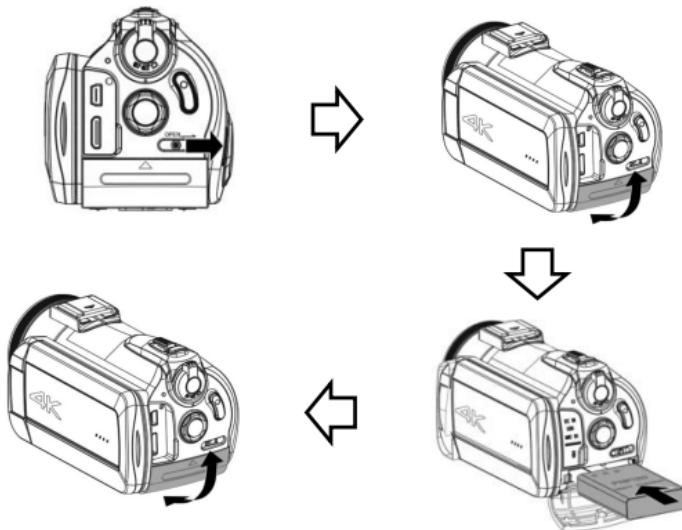

1. Open the Micro SD cover.
2. Insert the memory card in the direction shown until you hear "Clicks".
3. Close the Micro SD cover.

※ Open the Micro SD cover and press the memory card.

Note:

1. When using for the first time, format the Micro SD Card On this unit. The Micro SD card needs to be Class U3.
2. Do not forcefully remove the SD card while working, otherwise it may cause loss of files or machine damage.

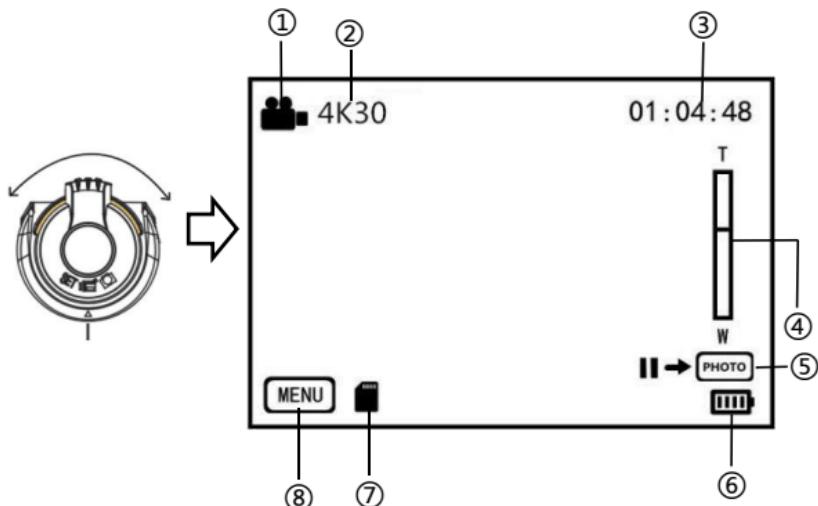

Loading Battery

- 1.Push the OPEN button to the right as shown.
- 2.The battery compartment pops open, inserts a lithium battery.
- 3.Close the battery compartment.

Note : 1.Do not violently open the battery compartment and remove the battery.
 2.The battery needs to be loaded into the battery compartment in a correct direction.

Recording Mode

①	Recording mode	④	Zoom

Speaker	Built-in
Microphone	Built-in
Battery	NP120 Li-ion battery
Working Temperature	0 ~ 40 °C

Troubleshooting

Trouble	Possible reason	Solution
Cannot power on	Battery is not inserted correctly/dead	Insert battery correctly/ Charge
Unclear Focus	Out of focus range / lens dirty	Shooting in focus able range/Clean the lens
Unable to use memory card/unable to record	Card damage / Micro SD card does not meet requirement	Replace the Micro SD card / Format the Micro SD Card / Use the U3 Card
Fail to use it as a PC Cam	USB Cable is loose / Computer system version is not compatible	Replace the USB interface / Select a compatible system

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
