Love the integration

I love how integrated the app and the band are. I really love the feature where the band vibrates if you leave your phone behind it saved me quite a few times.

Puts my mind at ease

I have two daughters, one 12 year old and one 16, and the 12 year old wants to go out like the 16 year old. I've been feeling much more at ease knowing that if anything were to happen, they're wearing their ěllu.

My husband works crazy hours, he's always going from one meeting to the next and it's impossible to reach him when you really need him. Now with ěllu Pager, all my urgent messages are answered
