

LH-87294**Operating Instructions:****To use massager independently:**

1. This item comes with a travel lock feature. To turn product on, press and hold the power button on the base of the massager for 3 seconds; A glowing LED light will indicate the product is on.
2. To turn on vibrations, single press the power button. Press the button repeatedly until the desired function is reached.
3. To turn off vibrations and product at any time, press and hold the power button for 3 seconds. LED light will turn off.
4. This item comes with a memory feature; item will resume on last function used.

**To use with remote:**

1. This item comes with a travel lock feature. To turn product on, press and hold the power button on the base of the massager for 3 seconds; A glowing LED light will indicate the product is on.
2. To turn on the remote, press and hold the XO button for 3 seconds. A flashing LED light will indicate the remote is on.
3. To turn on vibrations in the massager, single press the XO button. Press the button repeatedly until the desired function is reached.
4. To turn off vibrations and product at any time, press and hold the XO button for 3 seconds. LED light will turn off on the massager and the remote.
5. This item comes with a memory feature; item will resume on last function used.

The massager must be activated to pair with the remote. A glowing LED light will indicate the massager is activated. Ensure the massager is deactivated after each use to preserve battery life. Massager will automatically deactivate after 30 minutes of inactivity. Product has a memory chip feature and will resume on the last function used.

LED light will flash while charging and glow solid when fully charged. Fully charge product before use. Battery life depends on frequency and speed of use. We recommend fully charging your product once every 6 months.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with Part 15 of the FCC Rules and contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

RF warning for portable device:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes : (1) Cet appareil ne doit pas causer d'interférences. (2) Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil
