10.AQ

Q: How can I change languages if I mistakenly choose an unknown language?

● Find setting icon 🔲 and access *Settings*.

● Choose icon 🅰 to enter *language&input* setting, the first option is language setting.

Q: How can I change input?

Access *Setting – Language&input*, and set default input.

Q: There are many popups of system error, what can I do?

● Restart the tablet by POWER button, or by RESET. Use a thin stick to prick the RESET and restart the tablet.

● If you have restarted the tablet and there are still error popups, you can check active applications to see if there is any unknown application, remove it if any.

● There may be virus in the device, please install security apps and protect your tablet.

11.About Firmware

Firmware contained in the tablets provides the control program for the device, and it is offered by the original manufacturer. Flashing firmware (refer to *rebuilding firmware into the device*) is the final solution to serious system problems. For common breakdown you can just restart the device, or run *factory reset.* If system crashes appear continuously even you have run factory reset, you can flash firmware under professional guidance. The firmware preloaded in the device is a stable version for the tablet, Please do not flash it with other versions of firmware unless absolute necessity. We DO NOT suggest any private firmware flashing without guidance of the original manufacturer, who is not responsible for any possible breakdown of the tablet caused by user's private firmware flashing.

FCC Caution：
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
