- iPod and USB play/pause function, Memory a channel in radio mode.
- Adjust volume level up or down.
- Volume mute on/off.
- Show a status of FM frequency.
- Select the time duration of the sleep timer.
- Select USB mode.
- Select AUX mode.
- Select AUX next 10 songs.
- Select preset station channel in radio mode and select a folder in USB mode.
- Select alarm 1 / alarm 2 and off function.
- Frequency up / down in radio mode and skip tracks forward / backward in iPod and USB mode.

#### PLAYING AND CHARGING APPLE PRODUCT

##### CHARGING YOUR APPLE DEVICE

Even when the YW-009 is in standby mode, once your iPhone/iPod is docked onto the Lightning Connector, the charging will start automatically.

##### LISTENING TO MUSIC ON YOUR APPLE DEVICE

1. Dock your iPhone/iPod onto the lightning connector located on the docking station.

**Note:** 1.) Please be careful when docking the iPhone/iPod onto the 8-pin lightning connector located on the iPhone/iPod or in the YW-009.
- 2.) If unit is power on and in other function mode, it will switch to iPod mode automatically when iPhone/iPod is docked.
2. Tap the button to turn on the unit.
3. Tap the FUNC. button to select iPod mode. The display will show indicator on iPod.
4. Tap the TUN / MEM button to play, pause or resume iPhone/iPod playback. Tap the TUN / button to skip tracks forward / backward or fast-forwarding / fast-reversing during playback.
5. Adjust the sound level by pressing the VOL + / - button.

**Note:** The volume level cannot be adjusted using the volume control on your iPhone/iPod after being docked.

#### RADIO OPERATION

##### FM ANTENNA

Fully unwrap and extend the FM antenna wire for the best FM radio reception.

##### RADIO TUNING

1. Tap the button to turn on the unit.
2. Tap the FUNC. button to select FM radio mode. The LED display will show the radio frequency.
3. To manually tune to a desired station, repeatedly tap the TUN / button.
4. To automatically search for stations with strong signals, press and hold the TUN / button until the frequency digits on display begins to scan then release the button. The tuner will stop on the first strong signal it finds.
5. You may tap the MODE/ST.MONO button on remote control to select FM radio Stereo or Mono receiving mode, where the stereo indicator "st" and mono indicator "ff" display respectively.

#### RADIO OPERATION

##### PRESET RADIO STATION CHANNEL

The unit allows you to store up to 20 FM stations for easy recall at any time.

1. Tap the button to turn on the unit.
2. Tap the FUNC. button to select FM radio mode.
3. Tune to the radio station you want to store in memory by using the TUN / TUN - button.
4. Tap and hold the TUN / MEM button, where the preset channel number appears on display and blinks.
5. To select desired preset station number, press the TUN / TUN - button.
6. To confirm preset location, tap the TUN / MEM button.
7. Repeat steps 3 to 6 to store other stations.

##### Notes:

You can overwrite a preset station by overwriting and storing the new frequency in its place.

##### RECALLING A PRESET STATION

In radio mode, press the TUN / MEM button then press the TUN / TUN - button, from the main unit or remote control, The preset channel number will appear on display.

#### LISTENING TO USB MUSIC

USB connector is 5V 500mA. It can charge an android phone or apple phone battery when unit is not in USB mode.

USB can play MP3 or WMA music format

1. Press the button to turn on the unit.
2. Insert the USB device into the USB connector.
3. Tap the FUNC. button to select USB mode.
4. The player reads the USB content and shows total number of song(s) on display then starts music playback automatically. The current playback song number shows on display.
5. Adjust the volume level by pressing the VOL + / - button.
6. To skip to a desired song, press the TUN / TUN - button.
7. To skip 10 songs forward, press +10 button on remote control.
8. To pause playback, press the TUN / MEM button.
9. To resume playback, press the TUN / MEM button again.

#### USB PLAY MODE

##### Repeat Playback

To repeat playback of one track, press the MODE/ST.MONO button on remote control once. A repeat one indicator "ONE" appears on the LED.

To repeat playback of the entire USB, press the MODE/ST.MONO button on remote control until the repeat "ALL" indicator appears on LED.

#### USING THE AUXILIARY INPUT ( AUX-IN )

1. Use an audio cable (not included) with one 3.5 mm stereo plug on both ends.
  2. Plug one end of the cable into the AUX-IN Jack on the back of the main unit and the other end into the Line-out Jack or Headphone Jack of your external audio device.
  3. Turn on the external audio device.
  4. Tap the button to turn on the unit.
  5. To select auxiliary audio input, tap the FUNC. button. The display will show indicator on "AUX" mode.
  6. The output volume can now be controlled using the VOL + / - buttons on the remote and main unit.
- Operate all other functions on the auxiliary device as usual.

#### ALARM OPERATION

The unit incorporated dual alarm timer, ALARM 1 and ALARM 2. You may set the two alarm time individually. It wakes you up from Beep Alarm, FM Radio, iPhone/iPod or USB. When the unit is OFF (Standby mode):

##### Select wake up alarm source

1. Press and hold the ALARM1/2 ON/OFF button on main unit or the ALARM button on remote control to enter alarm source setting mode. The ALARM 1 (2) LED indicator blinks.
2. Tap the VOL + / - button to select alarm source BEEP ("bu"), RADIO ("rad"), iPhone/ iPod(iPod) or USB.

##### Setting the alarm time

3. Tap the ALARM1/2 ON/OFF button again. The ALARM 1 (2) LED indicator blinks.
4. Tap the TUN / TUN - button to set alarm hour.
5. Tap the VOL + / - button to set alarm minute.
6. Tap the "ALARM 1/2 ON/OFF button again to set alarm volume level e.g (L05L07....).

##### Save settings and activate alarm function

To save all settings and exit the setting mode, tap the ALARM1/2 ON/OFF button or wait for a few seconds.

##### Enable daily alarm

1. Tap the ALARM1/2 ON/OFF button on the main unit or the ALARM button on remote control once to enable alarm 1 / ALARM 2 LED indicator lights steadily.
2. Tap the ALARM1/2 ON/OFF button once more to enable both alarm 1 & 2 and both ALARM 1 & ALARM 2 LED indicators light steadily.
3. To disable all alarms, tap the ALARM1/2 ON/OFF button again and both ALARM 1 & ALARM 2 LED indicators will be off.

To activate the daily alarm, the corresponding alarm source LED indicator (ALARM 1 / ALARM 2) should appear on the display.

#### SLEEP TIMER FUNCTION

##### SLEEP TO TIMER

This feature allows you to fall asleep to the radio / iPod/iPhone or USB music for up to 90 Minutes. The unit shuts off automatically when the time expires.

1. Tap the button to turn the unit on.
2. Tune to the desired radio station in radio mode or playback iPhone/iPod music in iPod mode.
3. To select the sleep timer to turn the unit off after 15, 30, 45, 60 or 90 minutes, tap the Z- SLEEP button repeatedly. The unit plays for the selected length of time then automatically turns off.
4. To view the remaining sleep time, tap the Z- SLEEP button once.
5. To turn the unit off before the sleep timer counts down to zero, press and hold the button on main unit or tap the button on remote control at any time.

##### Notes:

If you are falling asleep to music from an external device connected to the AUX input, the sleep timer will shut off the power to this system but it will not turn off the external device.

#### SETTING THE CLOCK

##### SETTINGS

When the unit is OFF (Standby mode):

Set 12/24 Hour format

1. Tap the MODE/ST.MONO button on remote control entering 12/24 hour format setting mode.
2. Tap the VOLUME + / - button on remote control to select 12 or 24 hour display format.
3. Tap the MODE/ST.MONO button on remote control again and the clock digits blink.
4. Tap the TUN / TUN - button on remote control to set hour.
5. Tap the VOLUME + / - button on remote control to set minute.
6. To save all settings, tap the MODE/ST.MONO button on remote control or wait for a few seconds to exit the setting

##### Exit setting mode

To save all settings, tap the MODE/ST.MONO button on remote control or wait for a few seconds to exit the setting

## **Warning Statement**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
