

We Netradyne Inc hereby declare that the module used in our product supports both 2.4 GHz and 5 GHz frequency bands. However, we are launching this product with support limited to the 2.4 GHz band. Accordingly, the primary antenna has been selected and configured to operate exclusively in the 2.4 GHz band.

Although the primary antenna does not support 5 GHz, the secondary antenna can support the 5 GHz band. Therefore, testing for 5 GHz functionality has been conducted using the secondary antenna.
