#### Charging instruction

The speaker comes with a built rechargeable battery.

Before using it for first time it is recommended you change the battery fully.

Use USB cable connection and charge the item. The LED indicator illuminates red color while the speaker is being charged. When the battery is fully charged, the LED indicator will be off.

## **Paring the speaker with Bluetooth devices (Phone or music device)**

- Long press the  to power on and get into the paring status with info sound.
- Place the speaker and Bluetooth device (phone or music device) no further than 20 feet apart.
- Activate the Bluetooth function on your Bluetooth device (phone or music device). Please refer to the manufacture's instructions for information about enabling Bluetooth on your device.
- Once your have activated Bluetooth on your device, select the pairing name from the list of available Bluetooth device.
- Once pairing has occurred, you will hear a tone, indicating that pairing was successful.
- You can now start to use the speaker.
- Once you have paired the speaker with a device, the speaker will remember this device and will connect it automatically when the speaker is in Bluetooth mode and the Bluetooth activated and is in range. Do not need to re-pair any previously connected devices.
- The speaker will attempt to automatically connect to the last device it was paired when Bluetooth mode is turn on. If you want to pair it with a new device, please turn off the last Bluetooth device, then use your new device to search for and select the pairing name of the speaker.

## **Storage**

Turn off the power when the product is not in use; Clean and store it safely.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
