Remote Introduction

Direction Up / Previous Chapter

Direction Left / Rewind — OK — Direction Right / Fast Forward

Select / Play Pause

Direction Down / Next Chapter

Tips

- The standard SATA hard disk is not an included accessory, which means you have to prepare it on your own.
- Please refer to manufacturer's user manual of your TV and/or amplifier to determine the appropriate HDMI ports and firmware settings.
- In case there is no sound in any of the above-mentioned three circumstances, please reset the audio settings on the Movie Server at Settings > Playback > Audio Output Mode, there are three options available — Analog, HDMI, and S/PDIF.
- For more detailed User Manual of DVDFab Movie Server, please refer to: www.dvdfab.cn/movie-server.htm
