Attestation

We, Relay, Inc., attest the followings for our device FCC ID: 2AMBHRY2267

- a. The equipment only punctures to optimize network performance and never to avoid licensed Incumbents.
- b. If a licensed incumbent is detected, the equipment will either use bandwidth reduction or a complete move of the channel for avoidance.
- c. If a channel is punctured in order to optimize network performance, it will continue to use CBP in the punctured region.

A handwritten signature in black ink, appearing to read "Michael DiVerde", written over a horizontal line.

Name: Michael DiVerde
