-  Short press for the next song, long press for turning up the volume.
-  To pick up or hang up a phone call
-  Play/Pause the music

Charge Integrated Battery

This Bluetooth speaker is powered by integrated rechargeable lithium battery. Charge the battery as follows:

1. Insert the charging cable into the DC 5V socket on the unit. Connect the USB plug into a PC or AC /DC adapter. The LED indicator turns red and the battery is being charged.
2. When the battery is fully charged, the red LED indicator goes out.

Pairing 59515 to mobile phone or other device

1. Turn on the speaker.
2. Turn on your mobile phone and activate the Bluetooth function.
3. Search for Bluetooth devices. 59515 will show up.
4. Pair your device with 59515. If password is needed, type in "0000". After 59515 is paired with your device, connect it to your device.

Technical Specifications

Range: 10 meters (Please note that the operating distance varies based on environmental factors)

Transmitting frequency: 2.4G Hz

Input : DC5V

Battery: 3.7V 300mAh

Charging time: approx. 2 hours

Operating time: approx. 3-4 hour

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
