

MODEL: BH481A

The diagram illustrates the components of the charging case and earphones. On the left, the charging case is shown open, revealing the earphones inside. A red dotted line points from the text "Indicator light for charging case" to a small red light located on the inside of the case. On the right, the charging case is shown closed, with a red dotted line pointing from the text "USB-C charging port" to a small red light on the bottom edge. Below these, two earphones are shown, labeled "L" (Left) and "R" (Right). A red dotted line points from the text "Indicator light for earphones" to a small red light on the side of the left earphone. Another red dotted line points from the text "MFB (multifunction button)" to a small red light on the side of the right earphone.

ES:

1. Saque 2 auriculares del estuche de carga, se encienden automáticamente (LED de Luz azul parpadeando) e ingresan al modo de emparejamiento.
2. Cuando los auriculares están apagados y no están en el estuche de carga, mantenga tocando simultáneamente el MFB de ambos auriculares durante 2 segundos para encenderlos (Indicador de LED azul parpadeando).

IT: 1. Mettere gli auricolari nella custodia di ricarica e si spengono automaticamente.

contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take this item for environmentally safe recycling.

Business users should contact their supplier and check the terms and conditions of the purchase contract. This product should not be mixed with other commercial wastes for disposal.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
