Federal Communications Commission (FCC)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause undesired operation.

No changes shall be made to the equipment without the manufacturer's permission as this may void the user's authority to operate the equipment.

Information to the user.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Specific Absorption Rate (SAR) Information

Your handset is a radio transmitter and receiver. It has been designed to comply with applicable safety requirements for exposure to radio waves. The radio wave exposure guidelines employ a unit of measurement called Specific Absorption Rate (SAR).

Te recommended SAR limit for any handset is 1.6 W/Kg averaged over a 6 minute period and taken over a volume containing a mass 1g of human tissue.

Body-worn Operation:

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10 mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

Maximum SAR for this device is as mentioned:

Head SAR: 0.435 Watt/Kg @ 1gm
Body worn SAR: 1.455 Watt/Kg @ 1gm
Body-worn distance: 10mm

Environmental Compliances

As per rules laid down by government for environmental concerns and safety, your device has been made to comply and conform to the respective regulations below:

The product is in conformity with the requirements of Rule 13 of e-waste Rules. The content of hazardous substance with the exemption of the applications listed in SCHEDULE II of the e-waste Rules:

1. Lead (Pb) – not over 0.1% by weight;
2. Cadmium (Cd) – not over 0.01% by weight;
3. Mercury (Hg) – not over 0.1% by weight;
4. Hexavalent chromium (Cr6+) – not over 0.1% by weight;
5. Polybrominated biphenyls (PBBs) – not over 0.1% by weight;
6. Polybrominated diphenyl ethers (PBDEs) – not over 0.1% by weight.

ISED (IC) (en)

This device complies with Industry Canada's licence-exempt RSS standard(s).

Operation is subject to the following two conditions:

(1) This device may not cause interference, and

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

(fr)

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) L'appareil ne doit pas produire de brouillage, et

(2) L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Before you get started, please read below:

Charge the battery

Before using the device you will need to fully charge the handset with the charging accessories provided with the handset. The battery is non-removable; attempting to remove it may invalidate your warranty.

Limitation of damages

To the maximum extent permitted by applicable law, in no event shall Cellnovo or its affiliates be liable to you, any user, or third party for any indirect, special, consequential, incidental or punitive damages of any kind, arising in contract, tort, or otherwise, including, but not limited to, injury, loss of revenue, loss of goodwill, loss of business opportunity, loss of data, and/or loss of profits, regardless of the foreseeability thereof or whether Cellnovo or its affiliates have been advised of the possibility of such damages. And in no event shall the total liability of Cellnovo or its affiliates exceed the amount received from you, regardless of the legal theory under which the cause of action is brought.

The foregoing does not affect any statutory rights which may not be disclaimed.

Disclaimer

Thank you for choosing to use Cellnovo. This device is built to provide you with a high quality handset. Please read this guide carefully and keep it for future use.

• The content and pictures in this manual may differ from the product, or from the software provided by service providers or carriers, and are subject to change without prior notice.

• The items supplied with your device and available accessories may vary depending on your region or service provider.

• Other accessories may not be compatible with your device; likewise the supplied items are designed only for your device and may be incompatible with other devices.

Device Overview, Layout & Labeling

1 Power Button

2 Main ANT

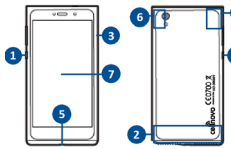

3 SIM Tray

4 BT/WIFI ANT

5 Micro USB connector

6 Secondary ANT

7 Display

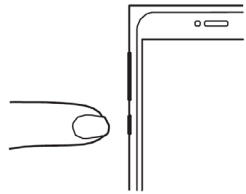

Power On/Off

Power On

Press the power button until your phone vibrates. When you turn on the device for the first time, you will need to set it up.

Power Off

1. If the display is off, press the power button to turn it back on.
2. Press and hold the power button for a few seconds and tap on power off on the options menu.

SIM Card

The SIM card will already be installed in your handset. Do not change this SIM card as it will invalidate the system and will affect your warranty.

Safety & Precautions

•This device is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU

CE

To prevent any damage to the device or any injury to you, please read the safety information before using the device:

- Do not use the device with wet hands.
- Do not use damaged power cords
- Never try to pull the charger from the cord.
- Avoid using any non-Cellnovo chargers.
- Keep the device dry. Precipitation, humidity, liquids or moisture can contain minerals that will corrode the electronic circuits. If your device does get wet, allow the device to dry completely before using it. In case of any issues, contact Cellnovo.
- Do not use or store the device in dusty, dirty areas.
- Do not store the device in extreme heat or cold temperature. High or cold temperatures can shorten the life of electronic devices and damage batteries.
- Do not attempt to open the device other than as instructed in this guide.
- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device. Only use a soft, clean, dry cloth to clean the surface of the device.

Traffic Safety

Avoid using handset while driving, please follow the traffic rules. Please follow all safety warnings and regulations when using your device in restricted areas. Do not use, if using device is prohibited. Do not use the device if doing so causes danger or interference with other electronic equipment.

Near Sensitive Electronics

Your handset may cause interference when used near TVs, radios or automated office equipment.

While Flying

Your handset can cause interference with aircraft equipment. Please follow all airline and crew regulations and power off your handset or select Airplane Mode when directed.

In Medical Facilities

Your handset may interfere with the normal operation of a medical equipment. Follow all hospital regulations and power off your handset or select Airplane Mode when directed.

At a Fuel Station

It is not advisable to use your handset at fuel stations.

Disassembled Product

Never take your handset apart. Unauthorized repairs could break the terms of your warranty

Around Children

Keep your handset out of children's reach. It should never be used as a toy.

Original Accessories

Only use the original accessories supplied with your handset or those approved by the manufacturer.

Near Explosives

Turn off your handset in or near areas where inflammable or explosive materials are stored or used.

Working Temperature

The working temperature for the handset is between 0° and 40°C. Using the device outside of this range may cause malfunction and lead to long-term damage.

Safe Volume levels

Prolonged exposure to high volume levels through your handset or ear phones can damage your hearing. Exposure to high volumes while driving may cause distraction and increase your risk of an accident.

Proper Disposal

This symbol (with or without a solid bar) on the device, batteries, and/or the packaging, indicates that the device and its electrical accessories and batteries should not be disposed of as household waste. These items should be taken to a certified collection point for recycling or proper disposal.

For the purpose of recycling to facilitate effective utilization of resources, please return this product to a nearby authorized collection centre, registered dismantler or recycler, or Cellnovo when disposing of this product.
