Talk Time: 10hours	Input: 5V-1.0A Max
Bluetooth Protocol: HFP/HSP/A2DP/AVRCP	
Executive standard: Q/WMSX 022-2016	

Limited Warranty

Shining B products are warranted against defects in materials and craftsmanship for a period of one year from the date of the original retail purchase when used in accordance with Shining B user manuals. Under this warranty, your claim can be directed to Shining B , even if you purchased the product from an authorized third party. During the warranty period, Shining B will, at its sole option, repair or replace the original, defective parts or issue a refund in the amount of the original purchase price. This warranty does not include damage resulting from accidents, or from improper use, maintenance, or repair, or from other causes that are not defects in materials or craftsmanship.

Environmental Consciousness

Shining B Bluetooth In-Ear Headphones meet RoHS2.0 (2011/65/EU) requirements.

Parts	Toxic Substances or Elements									
	(Pb)	(Hg)	(Cd)	(Cr(VI))	(PBBs)	(PBDEs)	(HBCDD)	(DEHP)	(DBP)	(BBP)
Headphone Body	○	○	○	○	○	○	○	○	○	○
PCBA	○	○	○	○	○	○	○	○	○	○
Battery	×	○	○	○	○	○	○	○	○	○
Ear Tip	○	○	○	○	○	○	○	○	○	○
Accessories	○	○	○	○	○	○	○	○	○	○
Charging Cable	○	○	○	○	○	○	○	○	○	○

○ means that the amount of toxic substances or elements in a particular part is less than the requirements under the European RoHS2.0 (2011/65/EU) standard, which is “the Restriction of The Use of Certain Hazardous Substances in Electrical and Electronic Equipment” standard.

✗ means that the amount of toxic substances or elements in a particular part is more than the requirement under the European RoHS2.0 (2011/65/EU) standard. The “✗” in above form meets European RoHS2.0 standard.

Tips

1. Please read this instruction manual carefully and retain for future reference.
2. Please fully charge the battery before first use.
3. If the headphones have been unused for more than 3 months, we recommend that you charge them. This will improve battery capacity.
4. Only use chargers that are FCC (Federal Communications Commission) approved.
5. In dry environments, static electricity may numb your ear.
This is not related to the quality of the product.

Safety Information

1. Never disassemble the headphones. There are no user-serviceable parts inside.
2. Do not expose the headphones to temperatures below 32 °F (0 °C) or to temperatures above 113 °F (45 °C).
3. Do not use the headphones in a thunderstorm storm. This could prevent the headphones from working properly, and also increase your chance of being electrically shocked.
4. Do not use oil or any volatile liquid to clean this product.
5. Do not listen at high volumes for extended periods of time.
6. Do not use the headphones while operating a motor vehicle. Do not use the headphones any time it would be dangerous to be unaware of noises around you.
7. Adult supervision is required for children age 6 and under.
8. If you don't feel comfortable after wearing the headphones, please refer to an aurist for advice on whether or not in-ear headphones are suitable for you.

FAQ

1. The headphones don't turn on.

Check if your headphones have enough battery life. If not, please charge them for at least 30 minutes.

2. The headphones and my device do not connect, or take a long time to connect.

- 1) Check that your headphones are in the “discoverable” mode (red and blue lights flash alternately).
- 2) Make sure that your headphones are not connected to other devices, and that your device is not connected to other Bluetooth devices.
- 3) We recommend that you press. Your headphones’ pairing history will be cleared and will automatically enter the “discoverable” mode. If they are still not connecting, restart your device to connect.

3. My Android device successfully connects to the headphones, but the headphones don't play music.

After pairing successfully, on the Bluetooth menu of your device, tap the icon on the right of your device name and make sure the “Media Audio” option is on.

4. My Android device successfully connects to the headphones, but there is no sound from the headphones while making phone calls.

After pairing successfully, on the Bluetooth menu of your device, tap the icon on the right of your device name and make sure the “Phone Audio” option is on.

5. The Bluetooth connection is not stable, causing some interruptions.
 - 1) Try shortening the distance between your headphones and device.
 - 2) Avoid solid barriers in between. Please Keep away from strong interference sources, such as Wi-Fi and GPRS.
 - 3) Please make sure the Bluetooth antenna of your device is not blocked.
6. While using third party music/video player apps, some in-line remote control functions do not match those in the manual.
 - 1) Your operating system and the third party music/video player apps may have different settings for the in-line remote control functions.
 - 2) We recommend that you use the music/video player apps that your device has originally provided.

7. I adjusted the in-line remote control to the maximum volume, but the actual volume still sounds low.

In different operating systems, especially some Android systems, the headphones and your device have separate volume control systems. Please adjust the volume controls on both the device and the headphones according to your preference.

WEEE

Electrical and electronic equipment, parts and batteries marked with this symbol must not be disposed of with normal household wastage, it must be collected and disposed of separately to protect the environment.

Your Shining B retailer will advise you of the correct way of disposal in your country. Do not expose batteries or battery packs to excessive heat such as sunshine, fire or the like.

CE

Hereby, Shining B , declares that this Radio LAN device is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

FCC

FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
