Thank you.

We appreciate the trust and confidence you have placed in Husky through the purchase of earmuffs. We strive to continually create quality products designed to enhance your home. Visit us online to see our full line of products available for your home improvement needs. Thank you for choosing Husky!

Safety Information

Use caution and good judgment when operating the Earmuffs. Failure to adhere to the safety warnings and guidelines in this manual could result in body injury or property damage. Save this manual for future reference.

WARNING: Read and follow all warnings and instructions in this manual to avoid personal injury or property damage.

1. Always unplug the USB cable from the power source when not in use.
2. DO NOT place the earmuffs in water. Keep all components dry and out of water at all times.
3. DO NOT use this product for other than its intended use.
4. DO NOT charge or operate in close proximity of combustible or flammable materials.
5. DO NOT charge battery in gastight enclosures.
6. DO NOT attempt to charge or operate the earmuffs if USB, battery, or any part of the earmuffs is damaged or corroded.
7. Only use charging devices that are provided with the earmuffs or its replacements.
8. DO NOT disassemble or tamper with the battery.
9. DO NOT dispose of the battery in fire as this may result in explosion.

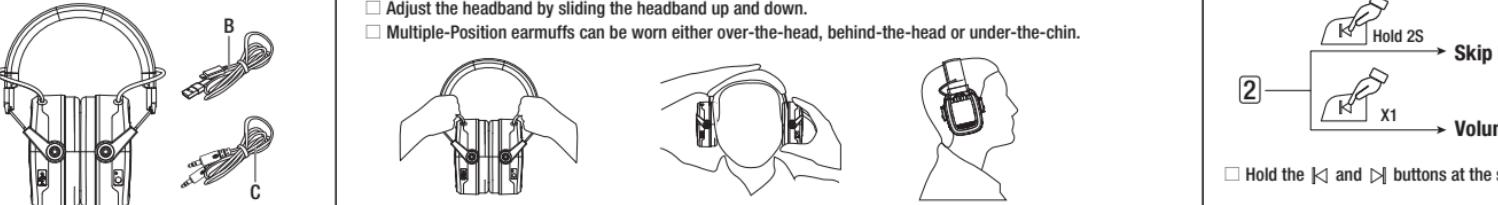

Warranty

This product is guaranteed to be free of defects in materials and workmanship for 3 years from the date of purchase. If the product is defective, call 1-888-43-HUSKY or visit www.huskytools.com. Guarantee does not include normal wear and tear, USB cable, or rechargeable battery.

Pre-Operation

PACKAGE CONTENTS

Part	Description	Quantity
A	25dB Electronic Hearing Protection Earmuffs with Bluetooth	1
B	Type-C USB Charging Cable with Type-A Adapter	1
C	Aux Cable	1

Specification

Product Information	Specifications
NRR	25 dB
Input	DC 5V 1A(Max)
Bluetooth version	5.4
Battery	2.775 Wh
Bluetooth work distance	10 m
Charging time	2.5 hours
Runtime	40 hours
Bluetooth pair name	Husky earmuffs

Operation (continued)

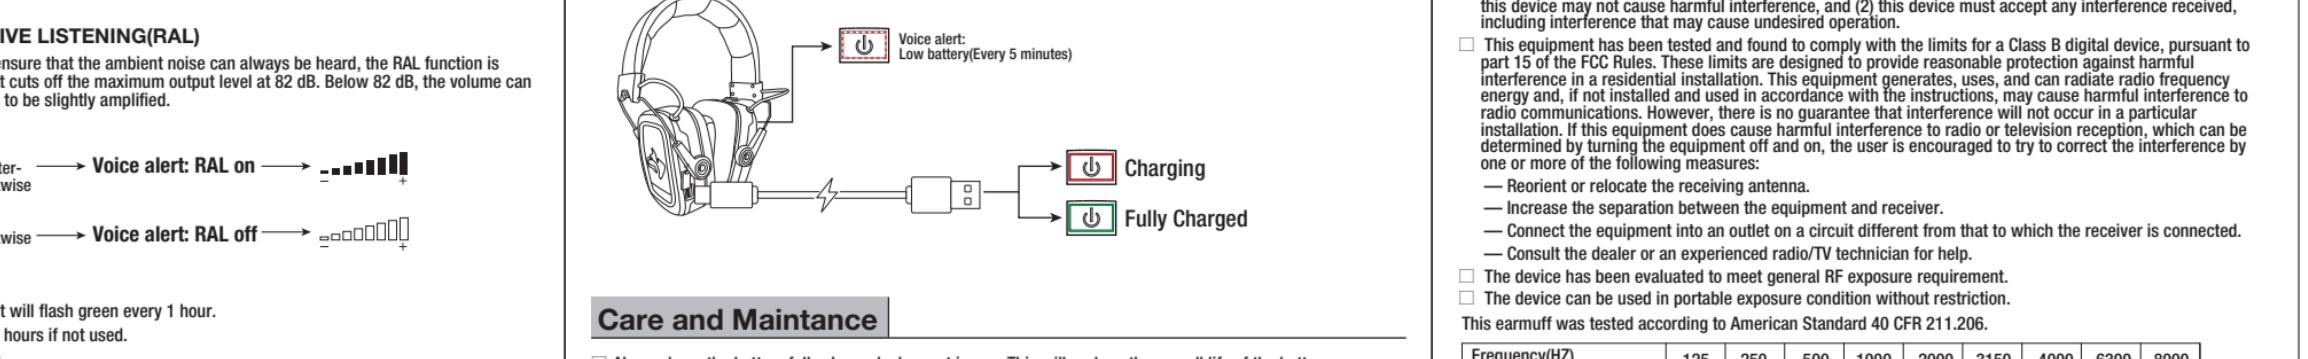

CHARGING THE RECHARGEABLE BATTERY

OPERATING THE REAL ACTIVE LISTENING(RAL)

The RAL is a stand-alone function. To ensure that the ambient noise can always be heard, the RAL function is equipped with a sound level limiter that cuts off the maximum output level at 2dB. Below 2dB, the volume can be adjusted. This enables quiet sounds to be slightly amplified.

NOTE:
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Operation

Care and Maintenance

FITTING

WARRANTY: Read and follow all safety warnings and instructions in the user manual before operating the earmuffs.

IMPORTANT: Do not allow the battery to discharge completely. When battery indicator is red flashing, it indicates low battery. Turn OFF the earmuffs and recharge the battery as soon as possible.

OPERATING THE LINE IN FUNCTION

Troubleshooting

NOTICE: For the best environmental protection, the RAL function is recommended to frequencies below 100Hz. The weighted environmental noise level should be used. Improper fit of this device will reduce its effectiveness in attenuating noise. Consult the enclosed instructions for proper fit. If the hearing protectors can be recommended to protect against the harmful effects of impulse noise, the Noise Reduction Rating (NRR) is based on the attenuation of continuous noise and may not be an accurate indicator of protection against impulse noise such as gunfire, construction or repetitive exposure to impulse noise may lead to serious injury, including temporary permanent deafness. The Noise Reduction Rating (NRR) calculated from the attenuation data is 25 dB. Earmuffs must be fitted to ensure noise effectively. Please refer to manufacturer's instructions.
