

Subject: Administrative Update – Correction of US Agent for Service of Process Information

Dear Kiwa Nederland B.V.,

We, [Shenzhen Jimi IoT Co., Ltd., FRN: 0026625269], hereby request an administrative update to the US Agent for Service of Process information for the following FCC ID(s):

2AMLF-JC451

2AMLF-JC182L

2AMLF-JC371NA

2AMLF-VL111P

2AMLF-VL111

2AMLF-JC182NA

As part of our company's strategic review of US Agent services and business partnerships, we have appointed a new US Agent for this FCC ID to better align with our current project support requirements and communication channels. The previous US Agent designation in the filing reflected an earlier service arrangement, which has since been transitioned. This update ensures that the designated US Agent is current, authorized, and aligned with our operational needs for this project.

We confirm that:

1. No technical changes have been made to the equipment.
2. No impact on RF test results, compliance, or labeling requirements.
3. This update is solely for correcting administrative contact information.

We request the TCB to update the filing accordingly under Administrative Update.

Sincerely,

Print name: Yi Xie

Title: System engineer
