Unless otherwise specified, this warranty covers the hardware components of the product as originally supplied and does not cover, or partially covers software, consumable items, or accessories even if packaged or sold together with the product. The limited warranty covers products defects caused by workmanship or building materials. For more details, please contact the seller.

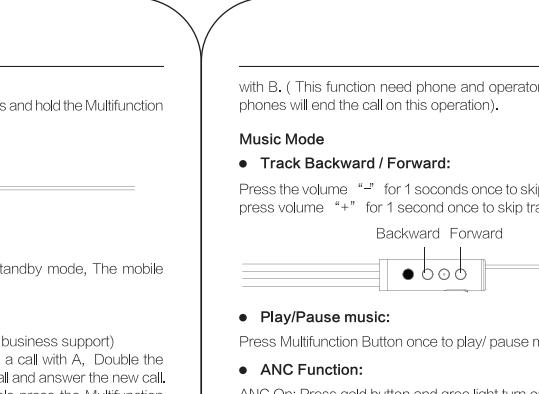

- Performance of a new battery is achieved only after two or three complete charge and discharge cycles. Do not leave a fully charged battery connected to a charger, since overcharging may shorten its lifetime.  
- Always try to keep the battery between 0°C - 45°C (32°F - 113°F).  
- A product with a hot or cold battery may not work temporarily, even when the battery is fully charged.  
- If the battery is dead, the product may present a risk of fire or chemical burn if misused. Battery may explode if damaged.  
- Dispose of batteries according to local regulations. Please recycle when possible. Do not dispose the battery as household waste or in a fire as it may explode.
- 1. To prevent hearing loss, please do not listen to music using earbuds excessively.  
2. Do not excessively tangle, bend, or stretch cables.  
3. Do not pull on the cable to unplug the earphones.  
4. To prevent infections, frequently clean the silicone earbuds.  
5. Periodically clean the microphone to ensure it does not get clogged with dirt or dust.  
6. For your personal safety, please do not use while driving, cycling, or crossing the street in order to prevent accidents.
- Built-in Battery Warning:  
- Your product is powered by rechargeable battery. The full

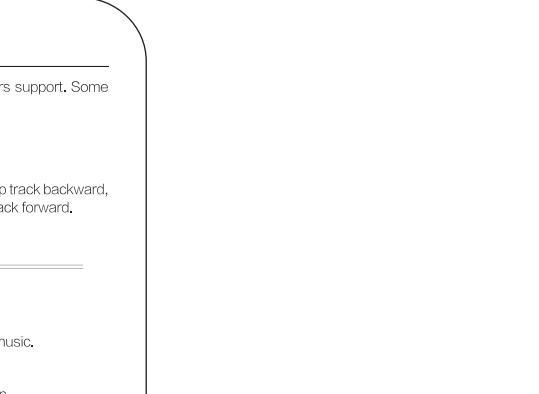

- Music Time: >13hours(ANC ON)  
Call Time: 13 hrs  
Standby Time: 350 hrs  
Charge Time: 1.5-2hrs  
Charge Voltage : dc5.0v  
Battery Type : Lithium Polymer Battery (3.7v / 250mAh)  
Driver Unit: 13.6mm dynamic drive  
Frequency Response: 20hz-20khz  
Chipset: BES2000-1S
- Reject a call  
When a callin, indicator light flashes, press and hold the Multifunction Button for a while to reject a call.  
press for a while
- Redial the last call:  
Double press Multifunction Button in standby mode, The mobile phone will redial the last call number.
- Third parties call:  
(It needs phone function and operators business support)  
► When a new call from B rings during a call with A. Double the Multifunction Button to Double current call and answer the new call. Switch call between A and B: Double press the Multifunction Button once to switch between current call with A and on hold call
- Play/Pause music:  
Press Multifunction Button once to play/ pause music.
- ANC Function:

- FCC Warning  
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However,
- there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-Reorient or relocate the receiving antenna.  
-Increase the separation between the equipment and receiver.  
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
