Connected to a device

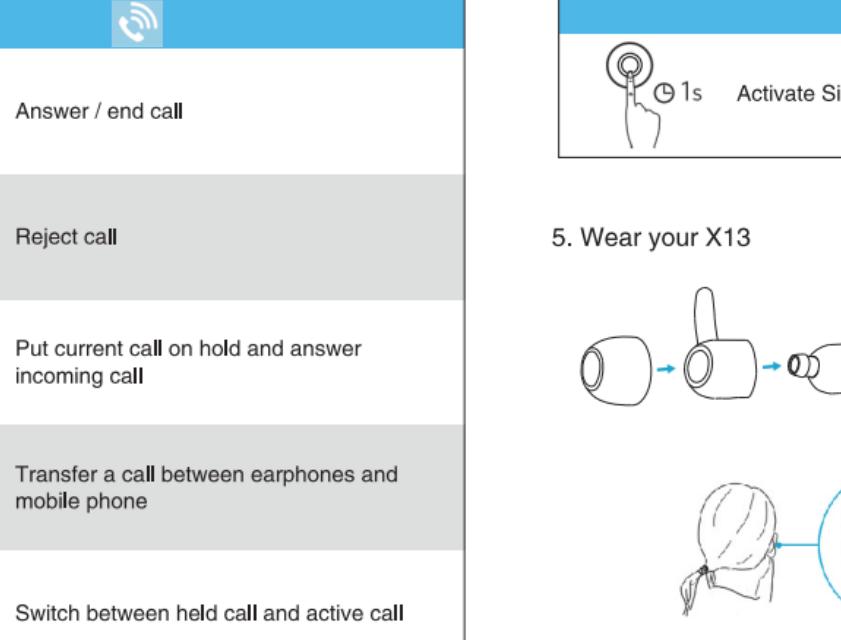

When turned on, X13 will automatically connect to the last connected device if available. If not, X13 will enter pairing mode.

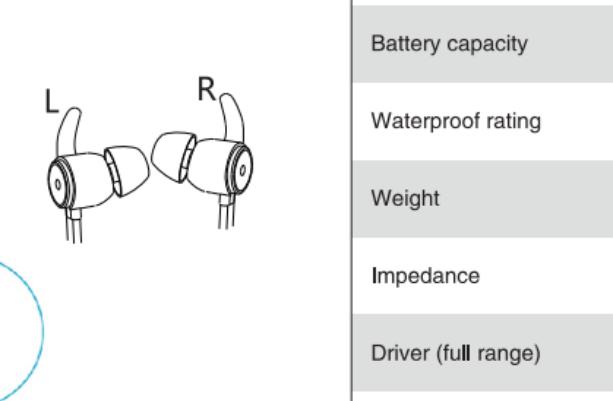

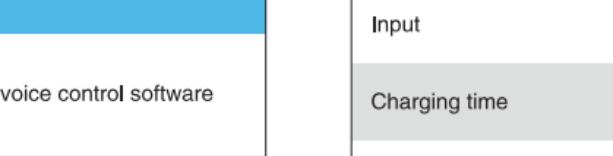

4. Controls

💡 When there is an incoming call while playing music, music automatically pauses to allow you to answer/reject the call. Once the call is ignored or ended, the music resumes.

	Steady blue	On a call
	Flashing blue	Incoming call

Battery capacity	110 mAh
Waterproof rating	IPX5
Weight	16 g / 0.56 oz
Impedance	16Ω
Driver (full range)	8 mm × 2
Frequency response	20 Hz - 20 KHz

Wireless version	V4.1
Range	10 m / 33 ft

Notice

This product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This product complies with the radio interference requirements of the European Community.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no

guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into a outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio/TV technician for help.
