• How to Use • Comment Utiliser • Cómo Utilizar

STEP 1. *Use with WATER ONLY! * À utiliser UNIQUEMENT avec de l'EAU! * Usar SOLO CON AGUA!

- To fill the Water Bottle, squeeze the air out of the bottle. Keep the bottle squeezed.
- Pour remplir La Bouteille d'Eau, faites sortir l'air de la bouteille. Gardez la bouteille pressée.
- Para llenar La Botella de Agua, exprima el aire de la botella. Mantenga la botella apretada.

- Locate the water filler cap at the TOP REAR of the Octo Blazer and pull it open. Gently squeeze the water out of the bottle and into the Water Tank. Do Not Overfill, avoid getting the exterior wet!
- Localisez le bouchon de remplissage d'eau en HAUT À L'ARRIÈRE du Octo Blazer et tirez-le pour l'ouvrir. Pressez doucement l'eau hors de la bouteille et dans le Réservoir d'eau. Ne pas trop remplir, évitez d'avoir le extérieur mouillé!

- Localice el tapón de llenado de agua en la parte SUPERIOR TRASERA del Octo Blazer y ábralo. Exprima suavemente el agua de la botella adentro del Depósito de agua. No llene en exceso, evite mojar el exterior.

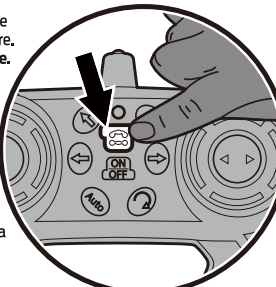

STEP 2. *Place Nozzle Tip into water and let go. This will pull up the water and fill up the bottle.

- Placez La Pointe de la Buse dans l'eau et relâchez. Cela tirera l'eau et remplira la bouteille.
- Coloque la Punta de la Boquilla en el agua y suéltela. Esto sacará el agua y llenará la botella.

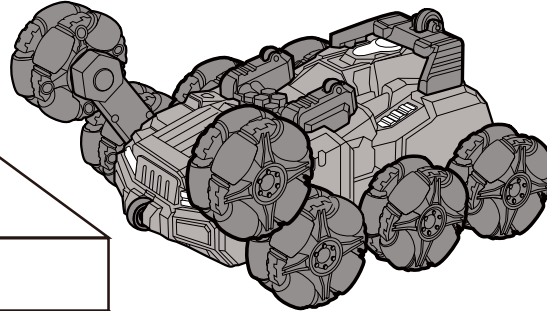

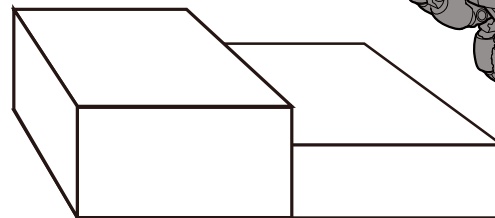

STEP 4. *Press the Vapor Button once to Activate the Vapor Feature. Press it again to Deactivate.

- Appuyez une fois sur le Bouton Vapeur pour activer la fonction Vapeur. Appuyez à nouveau dessus pour désactiver.
- Presione el Botón Vapor una vez para activar la función Vapor. Presiónelo nuevamente para desactivarlo.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
