RE: RF exposure information for:

Product name: Klikkit with FCC ID 2AMRDKLIKKIT

To whom it may concern:

Klikkit is a portable device intended for use within 20 cm of humans and must demonstrate compliance to the either relevant SAR limits or demonstrate a maximum conducted output power less than the SAR exclusion thresholds pursuant to "KDB 447498 D01 General RF Exposure Guidance v06" at the specified distance to user and frequency range.

The properties of Klikkit are as follows:

- Maximum average conducted output power: 0.8 mW
- Distance to user: < 5 mm
- Frequency range: 2400 - 2480 MHz

Power threshold according to KDB 447498 §§4.3.1: 10 mW

The power threshold for SAR exclusion is respected hence Klikkit is compliant.

Sincerely,

**Christian Sejersen**
