- Vol- / Last** : Short press button to play last song; Long press to reduce volume.
- TF Card** : This product could play music file by insert Trans-flash Card.

TWS Pairing Instructions

This product has TWS technology allowing users to enjoy even better stereo quality sounds with two speakers.

The instructions below explain how to pair two devices:

1.

Turn on both speakers by pressing the power button and make sure both speakers are not paired with other Bluetooth devices.
2.

Quickly press the **ON/OFF** button two times on one or both speakers. The speakers should get paired within 15 seconds and project a "beep" sound.
3.

If the pairing is not successful, turn off both devices and repeat steps 1 and 2. After pairing is successful, the main speaker will have a flashing light and the other device's light will stay on.
4.

To unpair the speakers, disconnect from your Bluetooth device or press the **ON/OFF** button two times. (Both speakers will stay connected and automatically paired if they are turned on and have paired before)
5.

Pressing the **Pause** button to stop and play music on one speaker will control both speakers.

Bluetooth V5.0 | Battery 1500mAh | Input: 5V, 500mA
Mono Ø40mm Speaker Driver x2, 4Ω-5W

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may

cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1)this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
