

Modifications Required for Compliance

The Bevi Countertop 1.0 Needed the Following Modifications to Pass Radiated Emissions:

DC Power cable from switch to Control board ferrite PN 0431164281 one Loop

DC power from AC/DC Brick to switch/Fan Ferrite PN 0431164281

Pump 1 Cable at Pump Ferrite PN 046178181

Pump 2 Cable at Pump Ferrite PN 046178181

Pump 3 Cable at Pump Ferrite PN 046178181

Pump 4 Cable at Pump Ferrite PN 046178181

Valve 1 Cable at Valve Ferrite PN 046178181

Valve 2 Cable at Valve Ferrite PN 046178181

USB Cable near 90 degree Connector Ferrite PN 0444164281

Power Cable from Control Board to SOM one Ferrite with one loop near control board PN 2643800502 and one ferrite right next to it PN 0461167281

Ethernet Cable Has 2 Ferrites one with one loop and one with no loop. PN: 0461164181

One Ferrite on the LVSD Cable under the Plastic Cover PN 0461178181

One Ferrite on the Touch Screen Cable PN: 0461178181

One Ferrite on Motor Cable bundle near Control Board PN: 0461167281

One Ferrite on Valve Cable Bundle near Control Board PN: 0461167281

One Ferrite on LED Cable PN: 0431164281

Wire Routing in Display Box, Metal Shield over SOM, and EMI Gasket around SOM PCB
Conductive Coating added to Plastic Display Box Cover around SOM PCB
